Sakib Mohammad Shahadat Illius

Lecturer

Department of Journalism Media and Communication

Daffodil International University

Subject: Submission of Internship Report

I am pleased to submit an internship report as part of my B.S.S (Hons) in the Journalism Media and Communication Department. At this time, I am interning in the multimedia team of one of the country's leading mass media Ajak Patrikar.

Ajker Patrika was an outstanding opportunity for me to gain knowledge and experience. I believe the knowledge gained during my internship period will help me in my working life. I have tried my best to achieve the objective of practical orientation.

Sincerely

Dibakar Chowdhury

Student ID: 201-24-727

Department of Journalism Media and Communication

Faculty of Humanities and Social Science

Daffodil International University

Certificate of Approval

I am pleased to certify that the Internship report on the Ajker Patrika prepared by Dibakar Chowdhury, student ID No: 201-24-727 of the Department of Journalism and Mass Communication has been approved for presentation and defense. Under my supervision, Dibakar Chowdhury worked with the Ajker Patrika as an intern and completed the work during the Fall 2023 semester.

I am pleased to certify that the data and the findings presented in the report are his authentic work of him. He is of a good moral character and a very pleasing personality. It was a great pleasure to have him under my supervision. I wish him all success in life.

Sakib Mohammad Shahadat Illius (Academic Supervisor)

Lecturer

Department of Journalism Media and Communication

Daffodil International University

Letter of Approval

31 December 2023
Ref.:AJP/Intern/Cert/12/2023/14

To Whom It May Concern

This is to certify that **Mr. Dibakar Chowdhury** (ID# 201-24-727), a student of the Department of Journalism, Media and Communication, Daffodil International University, Dhaka, has completed his Internship in *Ajker Patrika* (Bijoy Bangla Media Ltd.). He worked in our Online Desk (Sports) from 01 July 2023 to 30 September 2023. He worked sincerely and followed professional guidelines during his internship in this house.

Precisely, he successfully completed his internship at *Ajker Patrika*.

We wish his distinctive success towards his educational as well as imminent professional life.

Dr. Md. Golam Rahman
Editor
Ajker Patrika

Acknowledgment

Submission and presentation of this internship report as my studentship as a graduate student at Daffodil International University is coming to an end. A little more over the years of learning, suffering and commitment ended up being the things I learned not only from the teachers but from the people I met, visited, and observed.

As part of completing the degree, an internship is required, be it in a newspaper, TV station, or a bank, or even doing a project. I was lucky enough to work as an intern at Ajker Patrika, one of the most popular media in Bangladesh. It was a very exciting experience for me. Everyone in the office took me in and treated me well. They were very friendly when I asked for any information and helped me whenever I found something difficult. Finally, I would like to thank Sakib Mohammad Shahadat Illius, He is Lecturer at, Department of Journalism, Media, and Communication at Daffodil International University. Who was my academic supervisor, and helped me whenever I needed to know not only anything related to the internship but also more.

He supervised and helped my work throughout the time I had him as my teacher and also during my internship. I humbly appreciate what he has done for me. I also express my gratitude to the Department of Journalism, Media and Communication and Daffodil International University for allowing me to gain professional experience through an internship program.

Dibakar Chowdhury

Chapter One

Introduction

1.1 Background of the Organization

Ajker Patrika is a prominent media house in Bangladesh with print Newspapers, Digital portals, and Multimedia. The journey of this Bengali language national daily started from June 27, 2021.

The main objective of the country's leading news media is to serve objective journalism and relevant content in print and digital media as well as multimedia. Keeping in front of this slogan 'local daily of the whole country', they are presenting all the news from all corners of Bangladesh through news workers located in all the districts and most of the upazilas of the country. Ajker Patrika is now the third among all newspapers in the country in terms of circulation.

Ajker Patrika is moving forward with the tireless efforts of a group of young and energetic journalists. The entire team is led by media veterans who have years of accumulated knowledge and experience in the field. Editor of Ajker Patrika Prof. Dr. Md. Golam Rahman is a leading educationist, media researcher and communication expert of Bangladesh. He served as Chief Information Commissioner of Bangladesh Government Information Commission. He was also the Chairman of Bangladesh News Agency (BASS). Apart from this, he also served as the Chairman of the Department of Mass Communication and Journalism of Dhaka University. Under the auspices of the US-Bangla Group, Ajker patrika is being published from printing houses located in Dhaka and Bogra.

1.1A ORGANOGRAM

1.2 What is internship?

Internship is an apprenticeship period spent alongside education or before entering the workplace to gain practical knowledge of the job. Most of the time students get an internship after graduation. Internships create a temporary employment opportunity.

Internships can be either paid or unpaid. A good internship is just as important for entering the future workplace as it is for higher education. Students can gain practical insight into the corporate culture and day-to-day activities of business sectors through internships.

A student gets practical experience in the real work environment through internships which helps them to make permanent career decisions later in life. The duration of the internship can be from three months to one year. It can easily prove to the company that the new job aspirants are competent.

1.2A Why internship is important

A classroom is essential for philosophy, as it is true that there are certain things without which practical learning cannot take place. It should be remembered that student life and working life are not the same. A fresher usually doesn't know much about the corporate culture, and many are even quite apprehensive about the corporate world. This is why an internship is needed. To understand how to work in an organization and how to apply the subject knowledge acquired. The greatest aspect of an internship is that it makes a candidate job-ready before entering the job. Gets a basic idea of the day-to-day workings of an office, meetings, how to set priorities or tactfully communicate, and how to make sales efforts; So that you don't suffer initial shock while getting a job or getting a job in the future. And this internship plays a big role in my career. Moreover, when one goes to work in an organization, a network is formed there, which helps him to some extent to get a job. Considering all these things, an internship fresher is ahead.

Journalism and mass communication is one field where only academic results are required. Field experience is also a must. A journalist as a student in this department How to collect news, conduct an interview, collate information, and write it in a formal polished manner is learned during this apprenticeship. That's why internships are so important before a journalism and mass communication student enters the job market.

1.3 Background of my internship

Recently Ajker Patrika is gaining a good reputation among the media houses of the country. The print, online, and multimedia divisions of this Bengali-language newspaper have earned a reputation for promoting objective journalism as well as diverse and tasteful content as opposed to conventional work. Even before enrolling in journalism, when I thought of myself as a sports journalist, I had the desire to work in any of the reputed media outlets of the country. Ajker Patrika is standing tall above the pandemic Corona. If we talk about the reasons for interning in this newspaper, the sports page of this newspaper comes first. Where Rana Abbas, one of the true journalists of the country, is serving as the head of sports. When I heard that Ajker Patrika was hiring people in the sports department in multimedia journalism, then without delay, I applied as an apprentice to the multimedia department of this prestigious newspaper in the country. Since then, until these three months have passed, I have improved myself several times by acquiring different types of experience and various types of knowledge.

1.4 About my Supervisor

I completed my internship under Sardar Ronie. He was my supervisor in Ajker Patrika. Sardar Ronie is working as the coordinator of the multimedia section of Ajker Patrika. He has completed both Bachelor's and Master's in Mass Communication and Journalism from Dhaka University. In 2011, he entered journalism from "New Age". In 2014, he changed his job and was appointed as an Online Journalist at The Daily Star. After that, he started working as Senior Journalist in BBC Bangla from 2017. From March 2022 till now, he has been working as the multimedia department coordinator of Ajker Patrika.

1.5 Duration of the internship

My internship period was from 1st July 2023 to 30th September this year. I have completed the mandatory completion of 10 weeks of the internship period. I was present at the desk or on assignment 6 days a week, with the remaining one day off.

Assignments had to be made at any time even outside the roster created by "Ajker Patrika". I had to do duty in 2 shifts of the office

Chapter Two

Activities during internship

2.1 Weekly Diary

Week 1: 01 July, 2023 – 07 July, 2023

- In the first week of the internship, I first got to know the office colleagues and the supervisor.
- 2022 FIFA World Cup winning goalkeeper Emiliano Martinez came to visit Dhaka and this is my first internship assignment. We made a report about the world-winning goalkeeper's visit to Dhaka.
- I did another report about Afghanistan coming to Dhaka to play a series with Bangladesh before the World Cup.
- Nazmul Hasan Papon's press conference about Tamim's retirement during the Afghanistan series was live and reported several times on this whole issue.

Week 2: 08 July, 2023 – 14 July, 2023

- At the beginning of the second week, India came to play the ODI and T20 series in Bangladesh. I have done several reports about the win and loss of Bangladesh in this series
- On the one hand, Shakib Mushfiqur's Afghanistan series, on the other hand, Jyoti's India series. Where the boys lost the series even if they were white, Jyoti has made a constructive report about this incident.
- After the cricketer missed the lesson, he looked at football. Bangladesh faced Nepal but head coach Chhotan left the responsibility of the women's team before that match. I have also covered this Bangladesh vs Nepal women team match

Week 3: 15 July, 2023 – 21 July, 2023

- As there was no match in the third week, I used to travel to Mirpur Sher-E-Bangla Cricket Stadium for office tests and assignments. And from there different angles had to be taken out and reported.
- Cricketer Tawhid Hridoy spoke to the media after the Afghanistan series and created several contents on that topic.
- Mahmudullah Riyad, who was busy training in Mirpur, was suddenly left out of the team on rest. The preparation which was basically being in the World Cup squad also reported on it.
- In the second ODI at home and Bangladesh women lost, I covered that match also sitting on the field.
- Due to the assignment in Bangladesh Cricket Board, I reported on the Asia Cup plan of the Cricket Board Directors

Week 4: 22 July, 2023 – 28 July, 2023

- Nazmul Hasan Papon (MP) announced the bonus at Hotel Sonargaon in Dhaka after the Bangladesh women's cricket team drew the series with the Indian women. Covered this event.
- Former Pakistani cricketer Amir sought citizenship of England. At the same time, Mushfiq and Taskin were busy playing in Jim Afro T-Ten League.
- Meanwhile, the Tiger cricketers are sweating it out in Mirpur as the Asia Cup and the World Cup draw very close.

Week 5: 29 July, 2023 – 04 August, 2023

- Taskin Ahmed returned to Dhaka after completing Gym Afro T Ten. I went to the airport to cover this assignment.
- Given the Asia Cup and the World Cup, I did several reports and live on why the Bangladesh team started Mirpur conditioning.
- During the conditioning camp, the then ODI captain of the Bangladesh cricket team, Tamim Iqbal, is serving as the captain in the Asia Cup. I went to President Nazmul Hasan Papon's house in Gulshan and did a live package report on this matter.

CHAPTER THREE

LEARNING AND EXPERIENCE

3.1 Knowledge gathering/ learning

During my internship at Ajker Patrika, I did a variety of tasks. Here I got assigned as Junior Multimedia Sports Reporter. So, I was involved in various types of work. These are:

- I had to do sports related assignments every day.
- Had to go to the office with specific mobile and sound device for assignments.
- Had to work at the desk if there was no outdoor assignment.
- Many desk days, table maid content had to be written.
- If the game was played at night or if the Bangladesh team returned home late at night, they had to do late night duty.

What I learned during this time:

Time Management: Time management is very important for any profession. Only when we enter professional life can we realize the true value of time. A mass media always has to manage with time, now every second is precious. I have learned in these three months how important timing is.

Report Writing: I already had a fairly good understanding of report writing. But that is from university teachers. But Ajker Patrika made me more. There has been a slight change in sports journalism in the present time, so there has been a change in the writing and presentation of reports in keeping with the times.

Commentary: Live score updates and commentary were a special feature of Ajker Patrika on the occasion of the 2023 Cricket World Cup. And here is where I end this chapter. So far, I have commented about 10 international matches on Facebook and YouTube channels of today's newspaper.

Professionalism: During the internship, I never compromised on professionalism. Without hesitation I discuss my learning objectives with my colleagues. They are very helpful. Here I can talk about my personal matters and other matters not related to office hours.

3.2 Tools and technologies used

I was associated with the multimedia team of "Ajker patrika". Because of that I had to rely on mobile devices and Boya and Road microphones. Cameras were provided with cameras to cover big events.

Boya Company has microphones in the office studio to provide voice overs.

3.3 Special experience

During my internship at Ajker Patrika, I had some very special experiences.

- In the first assignment of his career, there was an opportunity to cover the visit of World Cup goalkeeper Argentina footballer Emiliano Martinez to Dhaka.
- Tamim Iqbal's retirement is the most talked about incident in the country's cricket. There was also an opportunity to cover the fans' movement to get Mahmudullah Riyad back into the team.
- The dream cricket world cup came to the country. That trophy went again to the Padma bridge of the Bengali dream. Had the pleasure of covering this as well.
- During my internship I covered several international series recognized by ICC.
- Had the privilege of interviewing former cricketer and freedom fighter Rakibul Hasan along with Habibul Basar Sumon and Md Ashraful.

CHAPTER FOUR

EVALUATION OF LEARNING

4.1 Academic learning and practical work

There is a big difference between practical knowledge and academic knowledge. The things we always try to learn in university life are theoretical things. There are not enough opportunities to work in the field/outdoors. In academic life we have always tried to do soft news or features. The university did not allow us to cover hard news/daily events. But coming to work life now all kinds of news have to be covered.

I didn't realize the value of time. But in these past 10 weeks of internship, I had to be quite serious and careful about time. When we were at university, we didn't have to worry too much about late submission of an assignment. But the assignment has to be submitted within a very short period of time. Even multiple assignments have to be covered in a day.

There is no way to think that academic knowledge is not useful in practical life. The inverted pyramid and 5W1H that we learned in university made our work life easier.

4.2 Expectation and outcome

I feel that my internship period will help me further in my future life. In this short period of time, I have learned a lot from "Ajker Patrika", which will be helpful in enhancing my journalistic knowledge.

My expectations and experiences from "Ajker Patrika" are similar. Because they gave me a chance to prove myself, sent me on different assignments. In a short period of time, I gained a lot of confidence from there. My supervisor always tried to challenge me. During that time, I learned how to work under pressure.

4.3 Skills developed during my internship

During my internship period I enhanced my skills in various subjects. These are:

- Challenges and obstacles of mobile journalism (MOJO) in sports journalism have been overcome.
- Ideas about camera angles are developed
- Fast typing
- Developing presentation skills
- An understanding of how to use digital media for a news story is also developed

4.4 How this experience will help me in my future career

Internship is the process that relates theoretical knowledge to the field and sharpens the knowledge which has already been acquired. I learned a lot in "Ajker Patrika" which was not very similar to my university curriculum. But now my practical knowledge of how to make good reports/news has improved.

So, when I apply for a job, I am hopeful that I will be able to apply this knowledge I have gained and not have to look for a job.

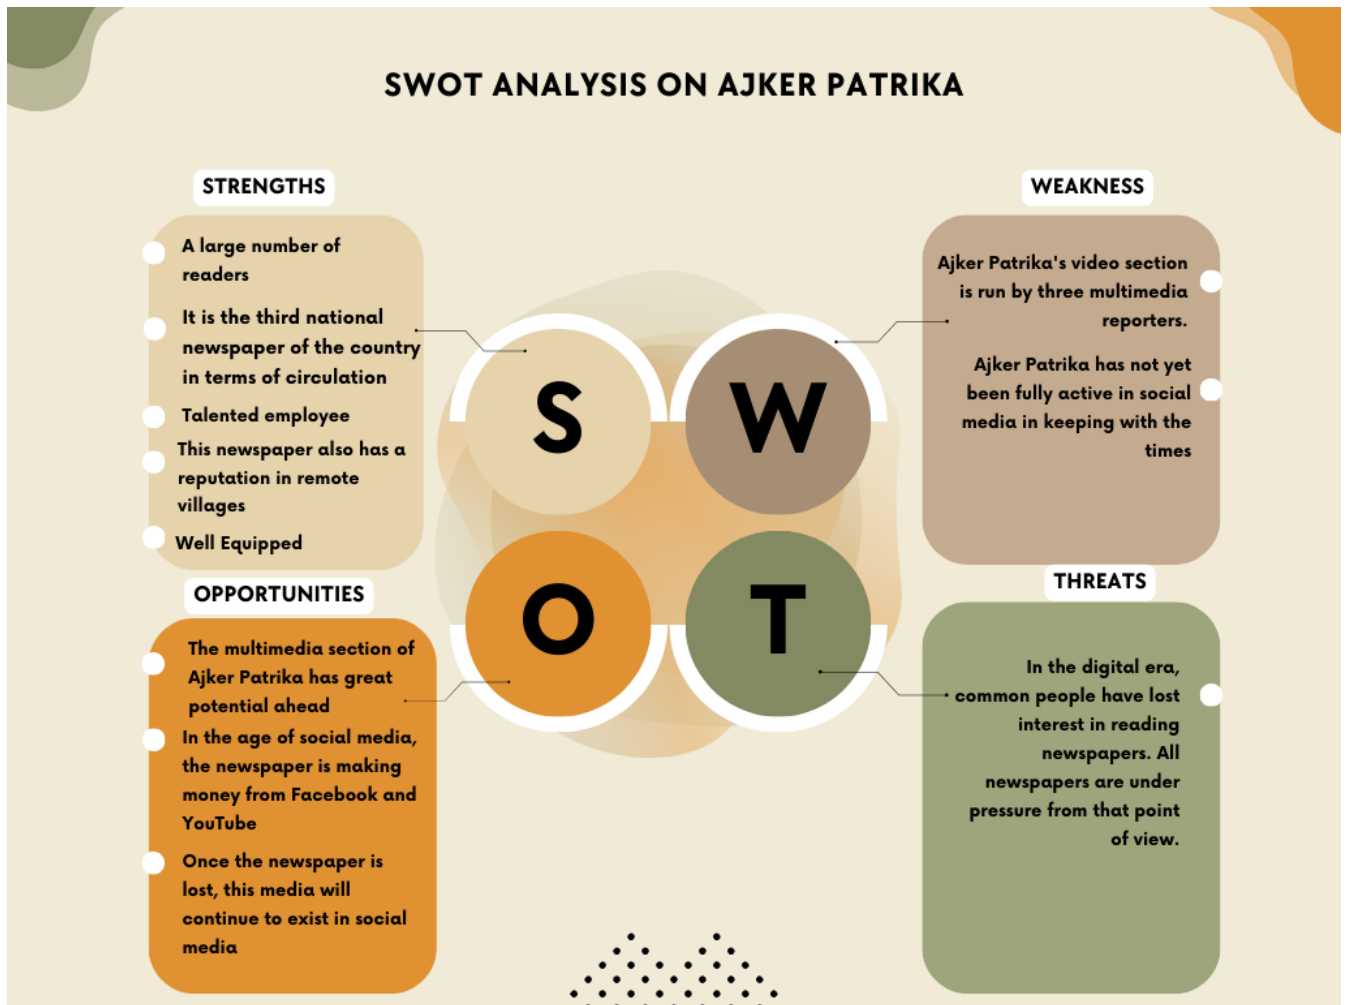

CHAPTER FIVE

CONCLUSION

5.1 SWOT Analysis

SWOT analysis is an acronym for Strengths, Weaknesses, Opportunities and Threats. SWOT analysis is the process of describing very briefly the strengths, weaknesses, opportunities and threats of an individual or an organization.

Below is the SWOT analysis of Ajker Patrika: -

5.2 Recommendations

It's really hard for me to make a recommendation. But I would like to give few recommendations to my multimedia department and Ajker Patrika. An internship of only three months is a very short period of time, here are the inconsistencies I found in this short period: -

- A full-fledged reporter is required for City Round in the multimedia team.
- A camera person is essential with a sports reporter.
- Apart from increasing the video editing panel, manpower should also be increased in video editing.
- Also, multimedia segmentation should be arranged on a larger scale.

Conclusion

The career path itself is primarily termed as an internship. There is an opportunity to do an internship here, one does not have to fear losing the job, because it is a learning phase and everyone is there to help. During this period one can make as many mistakes and questions as possible and one does not face any obstacles in working life. It would not be wrong to compare an internship to a baby stage that has just started talking. They keep asking until their curiosity is satisfied. But one thing to keep in mind is that relevant questions should be asked.

I learned a lot about the news while interning at Ajker Patrika. Be serious about punctuality, and professionalism. I will always try to remember these qualities they will lead me to a prosperous future.

I am very proud that I am completing my graduation with this internship report from a respected institution, Daffodil International University. Finally, I would like to thank all my teachers of Journalism, Media and Communication Department. Also, I would like to thank my colleagues and my supervisor sir, the institution that helped me during my apprenticeship.
