## **Chapter Five: Class Observation**

After joining the school on 11.2.2024 Principal sir asked me to do internship work under English subject teacher Sir Jonab Sheikh Md.Monoar Hossein. He said to observe Sheikh Md. Monower Hossain sir's class. He also said, if you want, you can observe another English teacher's class.

On 12.2.2024, I observed the English class of Manowar Hossain Sir in class 9 girls section.

### **First Class Observation**

At 11.15 in the morning I entered the ninth class classroom in the girls section with sir. After going to class, everyone greeted sir.

Sir introduced everyone. 48 students attended the class. Sir asked me to sit and observe the class. Then I will take class instead of sir. So I observed sir's class well, so that it would be convenient for me to take the class later. This school conducts roll calls in the first class. If you want to go home, you have to apply to the principal and take leave. So roll calls were not done in all classes.

Sir, in the previous class English book unit 1, lesson 1.3.3, text 1, 1 page each English line with Bengali translation and it gave an idea about the subject text, So that it was easy for students to understand. Sir asked everyone to open the books. On page 1 of text 1, note the difficult words said in Bengali. He asked everyone those words one by one.

Just wanted to know if anyone has any issues with page 1. Sir started the next page as no one had any problem. Sir taught English lines with Bengali translation. Asked to note down difficult, new words in a notebook.

Some students asked sir. Sir answered them. Sir asked everyone to come to read this text. He asked them to memorize the unknown words. By now the class bell rang.

All the students greeted sir. The class ended at 12.00 pm .

## **Second Class Observation**

Me and Monoar Hossain sir entered their classroom in the class 8 girls section . All the students saluted sir. There were 56 students in the class. Sir introduced me to them. Sir asked me to sit to observe the class.

The topic of sir's class was grammar, narration. Sir, in the previous class, he explained the rules and the words that change from direct speech to indirect speech and explained it with examples. He asked them all one by one.

Then I wanted to know if anyone had any problems. As no one had any problem sir started the next topic.

Sir taught them how to use assertive sentences from direct to indirect. The rules of changing them are taught with examples. Sir taught how any tense in direct narration changes to any tense in indirect narration.

Finally, some problems were solved. Which they could not solve. Sir explained it to them. Sir, all of them gave the solution to solve some problems. Sir asked the students to memorize the rules that he had taught them.

In the meantime, the class time was over. The class bell rang. The class ended at 1.50 minutes. All the students greeted sir.

Thus the class ended.

## Chapter Six -Teaching Experience

On 18.2.2024, I reached school at 10 am. Monoar Hossain sir said previously to take class 9 English 1st paper unit 1, lesson 1.2.1, text 3 on Endangered Animals of Bangladesh.

So I went with the preparation. So that there was no mistake in teaching my students.

### **First class**

I told sir how I will take the class. I showed him my class plan.

My class plan is -

<b>Time</b>	<b>Content</b>	<b>Activity</b>	<b>Outcome</b>
5 minutes	Introduction	They knew me before, 5–7 minutes before the end of the class he asked if there was any problemt will help me interact with everyone, and it will help me take classes.	They very happily introduced them.This made it easier for me to talk to them.

10 minutes	Check homework or discuss their previous topic	They read the previous class's topic very well. Students respond very well.	They will have revision of previous classes again. As a result, they can remember well. Those who were absent in the class will also get an idea about that class.
25 minutes	Discuss next topic	I have taught line by line English with Bengali translation. So that they can understand well. Ask someone to re-read what I have taught.	Those who have difficulty in understanding will be revised at the same time. They will understand it well and remember it.
5 minutes	Homework	I asked them to memorize the words they didn't know with Bengali meaning.	Through homework they will be able to remember new words. That will help them to speak and write English.

I took the first class on 18.2.2024. It was the first class of my life. So I was a little nervous. At 11.15 am I entered the classroom to take English class in class 9 girls section.

Since they know me, they were happy to see me. They accepted me easily. The atmosphere of the class was very friendly. Which gave me some relief and helped them take the class.

I exchanged my identity with the students. A total of 52 students were present in the class and 4 students were absent. Then I started taking their classes. I asked them to open the English books. I taught them the text, with the Bengali translation of the English lines.

In the text that I taught , I randomly asked in their class and told me the Bengali meaning of that para . So that they do my class carefully.

At the end, I asked if they had any problems. I answered a few questions. I asked them to memorize the words that they did not know the meaning of. Let them read what I have taught and come to the next class.

In the meantime, the class time was over. The students greeted me. After that, I finished the class and left the classroom.

Taking the 1st class was a different feeling that cannot be expressed in words. I am very happy to take their classes.

## **Second class**

On 18.2.24, after the tiffin period. At 1.15 -1.50 pm, I took English 2nd paper class in the girls section of class 8.

The topic of my class was narration. I showed the plan of taking my class to Manowar Hossain sir.

My class taking plan is -

Time	Content	Activity	Outcome
5 minutes	Introduction .	I introduced myself and took theirs.	They all introduced themselves fluently. It helped me take the class.
20 minutes	Read out and discuss the topic.	I teach them grammar rules and how to use them.	They already came up with ideas. Because of which they understood easily.
10 minutes	Problem solving and practice .	I let them solve their questions based on the rules I was teaching.	As a result, they will understand how long they have understood. It will enhance their question solving ability.
5 minutes	Homework	I asked them to memorize the rules and gave them some homework to solve the questions.	It will increase their knowledge power on this topic.

I entered the class room of class 8 girls section at 1.15 pm. The students greeted me. I asked them to sit down.

First, I have introduced myself for everyone's benefit. After that, the students introduced themselves. They tell me, they are very enthusiastic about my class. They interacted with me very easily. That helped me take the class with confidence.

I taught them narration. I taught them how to change the narration of interrogative sentences.

I have written the rules on the board and explained them with many examples along with these rules.

I want to know if they have any problem. As they have no problem, I solved the question with them.

At the end, I asked anyone to solve the question on the board. I asked everyone to tell why it happened and how to change it. They all wanted to solve the question. But the class time was almost at the end so many could not do it, Finally, I asked them to memorize the rules and gave them a task to solve the problem.

Meanwhile, the class time ends. The class bell rang. The students greeted me. After that, I finished the class and left the classroom.

I really enjoyed watching their performance. I am very satisfied with their interest and their performance. I am very happy for the class they are learning from. I am very happy to take their class.
