**Supervised by:
Prof. Dr.Engr. Md. Mahbubul Haque
Head, Dept. of Textile Engineering
Daffodil International University,
Dhaka,Bangladesh**

**A thesis submitted in partial fulfilment of
the requirements for the degree of
Masters of Science in Textile Engineering
Year: 2019**

ACKNOWLEDGEMENT

At first I am grateful to almighty Allah. Who gave me strength for this study.

I am grateful to all teachers of Daffodil University's Textile Department and grateful to my teacher and respected head Professor. Dr. Engr. Md.Mahbubul Haque Sir. Who has spent his valuable time and encouraged writing these thesis with constructive intelligence and suggestions at different times.

I also thank the Principal and Instructor of Barisal Women Technical Training Center, Principal and Instructor of Technical Training Center and Deputy Secretary of Youth Development Department. Those who waste their valuable time have benefited me with various technical data.

I am more grateful to the owners of all the Gents and Ladies tailoring shops at Barisal local area. Those who waste their valuable time have benefited me with various technical data.

I did not cooperate with any website while working on this research, I have collected all the information in different Boutique shop and organization.

Finally, I thank my father and mother, because they helped me financially and mentally.

S.M.Zahidul Huq

Masters of engineering in Textile Engineering

Daffodil International University, Dhaka.

Letter of Approval

This project report prepared by S.M. ZAHIDUL HUQ, bearing ID: 171-32-334 is approved for partial Fulfilment of the requirement for the Degree of Master of Science in Textile Engineering. The student has completed her project on “ **Study on local boutique shops**” under my supervision. During the project period I found him sincere, hardworking and enthusiastic.

15.02.2019
Supervisor

Prof. Dr. Md. Mahbulul Haque
Head, Department of Textile Engineering
Daffodil International University.

Abstract

What cloths are made in aBoutique shops/ tailor shops and what are the requirements of trimmings. How much clothes are needed, how much yarn is needed and what machines are needed in the tailoring shops. What is the skill of the machine. What are the major difficulties in the tailoring shops. Where the clothes are purchased and how much it is sold in the tailoring shops. How many tailor shops in Barisal local area, how many employees work and how much wages are paid to the employees.

The above information has been collected through conversation with owners and employees of different tailor shops and principal of Women Technical Training Center, Technical Training Center (common), assistant Director of Department of Youth Development in Barishal local area.

I got the information from the above-

1. Monthly clothing calculation, monthly business calculation of tailoring shops.
- 2.The calculation of the wages of employees and employees of the tailoring shops.
4. The difference between the tailoring system and the garments system. Such as-
 - A machine was used to create a clothes for the tailoring system. But each machine is used for each part of the garment factory.
 - Employees' wages are much higher in the tailoring system, but the workers' wages are far less in the garments system.
 - Tailoring systems clothing cost more than the garments system.

Chapter-1

1.Introduction:-

Cloth space among the basic needs of human being is second. Human civilization can not be considered without clothes. Similarly, clothing is not considered for tailors and garments. Tailor's shops are making men's and women's clothing to meet the basic needs of the people.

Boutique shops/Tailoring shops make men's and women's different types of clothing. Such as:- Shirt, Pant, Suite, Koti, Sherwani, Panjabi, Pajama, Fotua, Katua, Three piece, Burqa, Peticcoat, Blaus, Maxi, Night dress, skirt, Tops, Lehanga, Frog, Ejar pant etc.

There are 5 to 6 employees working in the Tailors shops. All sewing work is done with a General/Single needle lock stitch machine and a over lock stitch machine in the tailor's shop. Clothing price and wages are much higher in Tailor's shop.

In Tailor's shops women's make more clothes than boys. Male tailors shop employee work on the male and female tailors shop on the female employee to work.

1.1.Definition: -Boutique shop means Local tailoring shop. In the local tailoring shops, clothing is made of men and women's body sizes. Men and women's clothing were made in the local tailoring shops. Clothing is made by customer order on the local tailoring shops. There are five to six tailors (workers) work in the local tailoring shops. A tailor is a person who makes, repair or alters clothing professionally, especially suits & men's clothing.

Although the term dates to the thirteenth century tailor took on its modern sense in the late eighteenth century and now refers to makers of men's and women's suits, shirts, coats, trousers and similar garments, usually of wool, linen or silk.

1.2.Types of LocalBoutique shops/Local tailoring shops:- There are two types of Boutique shops. Such as- 1. Gents Boutique shops. 2. Ladies Boutique shops.

Gents Boutique shop:-Shirt, Pant, Suite, Koti, Sherwani, Panjabi, Pajama, Fotua, Katua, Trausar.*

Ladies Boutique house:-Three piece, Burqa, Peticcoat, Blaus, Maxi, Night dress, skirt, Tops, Lehanga, Frog, Ejar pant etc.

1.3.Function of Local Boutique house/Local Tailoring shops:-Clothing is made by customer order on the local tailoring shops. There are five to six tailors (workers) work in the local tailoring shops. A machine was used to create a clothes for the tailoring system. In addition to the general sewing machine at the tailoring shop, more different types of sewing machines are used: five tread 2 needle over lock machine, single needle lock stitch machine, fuzzing machine, button holing machine.Tailoring systems clothing cost more than the readymade garments. Marker and pattern are not used in the tailoring shops. Due to the waste of clothes is more in the tailoring shops.

1.4.Advantage Local Boutique house/Local Tailoring shops:-

- Clothing in Tailor's shop much stronger than garments clothing.
- Most Machine operators/Tailors have technical knowledge.
- Most Machine operators/ Tailors are educated in general education.
- Most female machine operators/ Tailors learn tailor made work at various women's technical training centers.
- Having a technical knowledge of the Machine operators/Tailors has a lot of work experience.

- Most female employees of tailoring shops are trained in women's technical training centers.

1.5.Disadvantage Boutiquehouse/Local Tailoring shops:-

- Employees' wages are much higher in the tailoring system.
- Tailoring systems clothing cost more than the ready-made garments.
- Marker and pattern are not used in the tailoring shops. Due to the waste of clothes is more in the tailoring shops.
-

Chapter-2

Literature survey

Anyone who has ever attempted to make a garment quickly understands that the most important elements of the final product is how well a garments fits. Tailoring is the art of designing, fitting, fabricating and finishing garments, the word “tailor”, which first appears in the Oxford dictionary in 1297, comes from a French word-tailler-meaning “to cut”. The Latin word for tailor was sartor, meaning someone who patches or mends garments; the English word “sartorial”, for something related to tailored garments, is derived from this word. Tailoring began to diversify in Western Europe, between the 12th and 14th centuries.

Different types of clothes are made in a Boutique shops/Tailoring shops and different types of trimmings require in a Boutique shops/Tailoring shops,it was shown on page no 9. Requirement of fabrics and yarn to make clothes in the Boutique shops/Tailoring shops for Gents & Ladies, it was shown on page no 9-10. Different kinds of wages for making clothes in the Boutique shops/Tailoring shops,it was shown on page no 10-13. The main problems of Boutique shops/Tailoring shops,it was shown on page no 14. Different types of machines used in the Boutique shops/Tailoring shops, It was shown on page no 14. Details about the machine operators in the Boutique shops/ Tailoring shops and the education qualification of machine operators in the Boutique shops/Tailoring shops,it was shown on page no 15. Details about the Barisal local tailoring shopkeepers buy clothes from, purchase price of cloths and sale price of cloth in the Barisal local Tailoring shops, it was shown on page no 15-17. Different types of Boutique shops/ Tailoring shops are there in Barisal sadar local area and many workers work in those tailoring shops, it was shown on page no 18-26. The monthly garments calculation, monthly business calculation and monthly cloth calculation of Boutique shops/ Tailoring shops and how much wages are paid to the employees of Boutiqueshops/Tailoring shops, it was shown on page no 27. Compare between Tailoring & Industrial system of garments cost, it was shown on page no 27-28. Women’s & men’s workers in the local tailors training are trained in the following training centers, it was shown on page no 29-35.

Chapter-3

Experimental details/Survey details

3.1. Different types of clothes are made in a Boutique shops/Tailoring shops and different types of trimmings require in a Boutique shops/Tailoring shops.

Answer:-Two types of clothing were made in the tailoring shops.

- i. **Gents clothes:-**Shirt, pant, Fotua, katua, Complete suite, Pajama, Panjabi, Trouser etc.
- ii. **Ladies clothes:-**Three piece, Peticot, Blouse, Burqa, Lehanga, Skirt, Tops, Maxi, Night dress, Frog, Ezar pant etc.

Different types of Trimmings:-Sewing yarn, Lining, Inter Lining, Label, Motif, Chain, Zipper, Button, Hook, Loop, Less etc.

3.2. Requirement of fabrics and yarn to make clothes in the Boutiques shops/Tailoring shops for gents & ladies.

Answer:-

3.2.1. For gents:-

Clothes	Clothes Type	Amount of fabric	Fabric width	Yarn quantity
Shirt	Half shirt	1.5 yards	1.25 yards	150 meters
	Full shirt	2 yards	1.25 yards	150 meters
Pant	Full Pant	1.5 yards	1.5 yard	150 meters
Complete suite	Coat	1.75 yards	1.5 yards	150 meters
	Pant	1.5 yards	1.5 yard	350 meters
Sherwani	Full	2.5 yards	1.25 yards	150 meters
Koti	Long	1.25 yards	1.5 yards	100 meters
	Short	1 yards	1.5 yards	
Panjabi	Long	2.5 yards	1.25 yards	150 meters
	Short	2 yards	1.25 yards	
Pajama		2.5 yards	1.25 yards	150 meters
Fotua	Half	1.75 yards	1.25 yards	150 meters
	Full	2 yards	1.25 yards	
Katua	Half	1.75 yards	1.25 yards	150 meters
	Full	2 yards	1.25 yards	

3.2.2. For ladies:-

Clothes	ClothesType	Amount of fabric	Fabric width	Yarn quantity
Three piece	Kamij	2.5 yards	1.25 yards	150 meters
	Salwar	2.25 yards	1.25 yards	
	Orona	2.25 yards	1.25 yards	
Burqa	General Burqa	3.5 yards	1.25 yards	200 meters
	Koti Burqa	5 yards	1.25 yards	250 meters
	Rumal chatat Burqa	6 yards	1.25 yards	300 meters
	Double chat Burqa	9 yards	1.25 yards	500 meters
	Short Burqa	2.75 yards	1.25 yards	130 meters
Peticoat	Six Chat Peticoat	2.5 yards	1 yards	50 meters
	Round Peticoat	2.25 yards	1 yards	50 meters
Blause	Full	1.5 yards	1 yards	50 meters
	Half	1 yards	1 yards	
Lehanga		2.5 yards	1.25 yards	150 meters
Skirt	Full	2.25 yards	1.25 yards	100 meters
	Half	2 yards	1.25 yards	
Tops	Full	1.5 yards	1.25 yards	100 meters
	Half	1 yards	1.25 yards	
Maxi	Full	3.75 yards	1.25 yards	100 meters
	Half	3.5 yards	1.25 yards	
Night Dress		3.75 yards	1.25 yards	150 meters
Frog		2.5 yards	1 yards	100 meters
Ezar Pant		1.25 ards	1yards	5 meters

Table-1

3.3. Different kinds of wages for making clothes in the Boutiqueshops/ tailoring shops.

Answer:-

3.3.1. For gents:-

Below are examples of some remarkable Boutique shops/ tailoring shops in Barishal sadar local area-

Clothes	Boutique shops/Tailoring Shops	Wages for making garments
Shirt	Redent Tailors	420/-
	Sark Tailors	420/-
	Mark Tailors	430/-
	Centuri Tailors	420/-
	Quality Tailors	400/-
	Fops Tailors	420/-
	Concord Tailors	430/-
	Remond Tailors	500/-
Pant	Redent Tailors	550/-
	Sark Tailors	600/-
	Mark Tailors	600/-
	Centuri Tailors	550/-
	Quality Tailors	550/-
	Fops Tailors	600/-
	Concord Tailors	600/-
	Remond Tailors	700/-

Ejar Pant	85/-

Table-4

3.4. The main problems of Boutique / Tailoring shops.

Serial no	Types of problem	Main problems of Boutique shops/ Tailoring shops
1	Workers	Lac of workers & skilled workers.
2	Electricity	There is no regular electricity supply.
3	Machines	There is no ability to buy modern machines.
4	Machine repair	Immediate machine can not be repaired.
5	Trimmings	Trimmings are not available.
6	Capital	Lac of capital.
7	Delivery	Can not deliver at the right time due to lack of labor.
8	Worker fees	Workers fees are less.
9	Learn tailoring	Due to low fees, workers are less interested in learning tailoring.
10	Skilled cutting master	Lack of skilled cutting masters.
11	Store rent	More in store rent.
12	Electricity bills	Electricity bills are more.

Table-5

3.5. Different types of machines used in the Boutique shops/ Tailoring shops?

Answer:-

Name of Sewing machine	Full specification and standards	Country of origin	Brand and Model
Normal Sewing machine (foot operated)	System-(MS) Foot operated	China	Brand-Singer Model-Foot Operated
Single needle lock stitch machine	Speed- Max 5000-5500spm with stand table motor, stitch length -Max-5mm, Needle type-DBx1	China	Brand –Shangong Model-GC-5550
2 needle 3/5 Thread Over lock machine, Sewing length 1.6-3.2 mm.	2 needle 3/5 thread, speed-Max 6000-7500spm, stitch length-1.5-3 mm.	China	Brand -GMC M-747
Embroidery Machine(operated)	Sewing speed-5000-8000spm	India	Brand -Sandip Model-130
Chain Stitch machine	Speed-Max 6000-7000spm, Stitch length-1.5-3 mm.	China	Brand -GMC Model-3880
Button attaching machine	Speed- Max1500spm, Needle type-TOx1/TQx7	China	Brand -Shangong Model-GE2108
Button hole Machine	Sewing speed- Max3600-Needle Type-DPx5	China	Brand –Shangong Model-GF-1081

Table-6

3.6 Cost of making garments in Boutique shop.

Answer:-The cost of making garments can be divided into two ways.

Such as:- 1.Tailoring system Garments cost. 2.Industrial system garments cost

Clothes	Tailoring system Garments cost	Industrial system garments cost
Shirt	Low cost:- 400-450	Low cost:-350-400/-

Chapter-04

Discussion of result:-

The above words are discussed below in the form of points-

4.1 Item wise fabric requirement and fabric roll size

It can be seen in table 01.

It was found that on average 1.75sq,yds and 2.5 sq.yds fabric is required to make half sleeve and full sleeve shirts,respectively. In this regards the boutique houses store fabric rolls of 150 length. Apart from this sometimes the customers also provide the fabric in that case the boutique houses only demand making charge which is mentioned in the following section.....

Pant:-On average 2.25 sq.yds fabric required to make full pant.

Complete suite:-On average 5 sq,yds fabric required to make complete suite.

Sherwani:-On average 3 sq,yds fabric required to make sherwani.

Koti:-On average 1.75 sq,yds and 1.5 sq,yds fabric required to make long and half koti.

Panjabi:-On average 3 sq,yds and 2.5 sq,yds fabric required to make long and short Panjabi.

Pajama:-On average 3 sq,yds fabric required to make pajama.

Fotua:-On average 2.5 sq,yds and 2 sq,yds fabric required to make full sleeve and half sleeve fotua.

Katua:-On average 2.5 sq,yds and 2 sq,yds fabric required to make full sleeve and half sleeve katua.

4.2 Wages and average wages for making garments of boutique house

It can be seen in table 2,3,4 .

I visited various boutique shops that is wages for different garments are different in boutique shops. Below are the average wages for making various gents & ladies garments-

Shirt:-430/-

Pant:-600/-

Complete suite:-4200/-

Peticoat:-Every 5 employees in a boutique shop can produce 300 piece shirts in the month.

Blaus:-Every 5 employees in a boutique shop can produce 450 piece shirts in the month.

4.9 Compare between Tailoring & garments system

It can be seen in table 12.

The main different between the Tailoring system & the garments system is that the Tailoring system is a waste of fabrics, but the garments system lacks the waste of fabrics, because marker & pattern are not used in the Tailoring system, but marker and pattern are used in the garments system.

The cost of dressing in the tailoring system is high but the cost of dressing in this industrial system is low.

4.10 Education and training for operator's works in Boutique shops

It can be seen in table 13, 14 & 15.

Education:-The Boutique shop employees are educated in general education, but lack their technical knowledge.

Training:-There are technical training center in different district of Bangladesh. Boutique shop employees take training on dress making & tailoring in technical training centers. As a result, their technical knowledge is growing. Below is a discussion about the activities of the various technical training centers of Barisal sadar-

Women's Technical Training Center (100% Women):-

It can be seen in table 13.

100% of women's are admitted to this institute, there are two department in this institution. Such as:-

1. Industrial dress making & embroidery

This organization has a course. Such as:-1. Regular.

Stabilized year:-1. Regular:-1981.

Course duration:-1. Regular:-3 month.

Students:-1. Regular:-30.

Chapter-05

Conclusion

There are various types of Boutique shops in different place of Bangladesh. Men & women's fashion clothing are made in boutique shops. Both women and men work in female boutique shops and man employees work in male boutique shops. There are two to six employees works in boutique shops. There are lack of skilled staff in the boutique shops. There are lack of modern machines in the boutique shops. All of the boutique shops have a lack of expert cutting master. Different types of machines are used in Boutique shops, such as ordinary sewing machine, single needle lock stitch machine, over lock machine, button whole machine, button attaching machine etc. Monthly garments calculations, monthly cloth calculations and monthly business calculations vary in variety of clothing. The main different between the Tailoring system & the garments system is that the Tailoring system is a waste of fabrics, but the garments system lacks the waste of fabrics, because marker & pattern are not used in the Tailoring system, but marker and pattern are used in the garments system. Most of the boutique shops employees are educated in basic education. Boutique shops staff lack technical knowledge. There are technical training centers in different districts of Bangladesh. Technical training centers are provided to the general men and women and boutique shop staff in technical training centers. Most garment workers receive technical knowledge and open a boutique shop in different place of the country. Self-employment is being done by men & women in the Boutique shops/ tailors shop and the unemployment of employees is getting worse. Women are more self-reliant, because women are more likely to learn tailoring than men and women are playing a lot in the country's economy and for this reason, there more number of female tailors than male tailors in all areas of the country. Women can sew their own clothes by acquiring knowledge of tailoring. Currently educated young people are doing business of tailoring and there can be a lot of benefits in a small amount of money. Women can work in order to learn the Tailoring, they can work in the house by order. So no need to rent a shop. Women and men can work abroad and work to learn the work of tailoring at the Technical Training Center. Finally, I want to say that all women and men should learn tailor made to work.

I have collected the information from all the places, their references are mentioned below-
