Daffodil International University

Acknowledgements

First of all I would like to thank the Head Master of 'Shapchari High School' Mr. Md. Mayeen Uddin sir for letting me to intern at his school and allowing me to finish my project work. Secondly I am also grateful to our in-charge, prof. (Dr.) Binoy Barman sir for guiding me throughout this dissertation and providing me the best possible solutions whenever I needed it. Last but not the least, I am very grateful to my parents for being there all the time for me, I would also like to take this opportunity to thank my friends.

Traya Khisa

Abstract

It was my personal experience when I went to Shapchari High School. It was located near to the Shapchari Bazar. Though the school was in the country side and it was very much attractive. Then I was visited the school for the first time on 27th of October. When I enter the school I saw there were a group of student's gossiping themselves and laughing at me by admiring themselves. At that time I was a bit uneasy but after a while I felt very much joyful because I was already awaited for that situation. Then I just feel like for a time being it was a great chance for me to full fill my internship.

When I entered to the school corridor I gave my identity and entered the teacher's room. After sometimes I was asked the clerk that I wanted to meet the Head master. Then I introduced myself to the head master, he was very much impressed. Later on he advised me to take some classes and take some experience from on duty teacher's. I introduced myself in the staff's room and they advice me to take classes of class VI(A), VI(B) & VII(B).

Specially I thanks to Mr. Bikiran Barua sir who helped me in the whole classes while taking my classes for my internship. It was my pleasure which all the classes were appreciating my experiences which I have given a lesson to them.

Chapter I

Introduction

Internship teaching is the culminating experience of the first degree program in education. It provides the opportunity to apply theoretical knowledge on teaching in the actual classroom setting and gain the experience. The internees are given open air, where I encounter students for the first time and face them with multitude of ideas , approaches, techniques and process. During this internship I got lots of opportunities to demonstrate the art of teaching in actual situation and participated in all activities in the school. The duration of internship was just for three days. During the internship I tried my level best to perform in all the assigned responsibilities in ‘SHAPCHARI HIGH SCHOOL’ under the teaching method from 27th October to 28th October.

Chapter II

OBJECTIVES

The general objectives of the internship is :

- To apply the theoretical knowledge on teaching in the actual classroom and gain the experience.
- To obtain a position as an school teacher utilize my dedication to the students educational needs and development.
- To posses positive attitude towards growing students skills in terms of academic and socio-cultural context. To develop the patience and psychological weakness to way out to their lessons.
- To figure out the students completion in their daily studies and environmental resources.
- To obtain a teaching position which uses modern teaching methods such as team learning and self learning.

Chapter III
METHODOLOGY

While preparing for this project I had to go with this following :

- The name of the institution which I have chose for my internship was Shapchari High School.
- I have chose three classes for my internship were Class VI(A), Class VI(B) and Class VII(B).
- I have chosen Mr. Bikiran Barua sir and Mrs. MasumaAkter mam, who have well experience in teaching. They were suggested by the other senior teacher's and capable for me in this internship.

Chapter IV

Institution Details

I have done my internship in a country side school. The name of the school was Shapchari High School, Rangamati. It was established in the year 1989 and its covers 2.5 acres land along with a football ground. The school consist of 460 students including primary and secondary and it was 2 stories each floor covers 10 classrooms and 4 four washroom, 2 for boys nd 2 for th girls. Each classroom has 2 fans and 2 lights. For stuffs they have 3 stuff room one for the primary school , one for high school and one for the headmaster. Each clas contains of 2 section 'A' and 'B'. The school consist of 30 teacher's including primary and high school, 4 clerks, 1 assistant head teacher, and a headmaster. This school had 2 laboratory, 1 for the biology and another one for both physics & chemistry. This school had one big library , a canteen and a large common room.

Here are the contact details of the school incase if anyone wants to know more about the school:

- Email:- shapschoolranga@yahoo.com
- Contact No:- 01820305177
- EIIN :- 107791
- Education code:- 4763

Chapter V

Class Observation Report

The classes that I have observed during my internship was Class VII (A) , Class IX (A) and Class VI(A) are as follows :

Class VII (A) 27th October :-

During my first observation period I was with the most experience teacher Mr. Bikiran Barua sir, he was so kind enough as senior teacher. I was with him during the 2nd period 10:15 A.M, when he was taking classes in class VII(A)Eng 1st paper , the chapter was “Games and Sports” as he completed his syllabus the chapter was a revised for the students. So, he called one by one and asked them to answered back. Some of the students were unable to answered, so, sir explained the whole class and the topics again and let them know the topics. I was so happy that everyone was aware of the topics again and so, they could answered back to sir.

.

Class VI(A) 28th October :

It was the 2nd class of my internship while observing the classes. The class was at 9:00 A.M.. 1st period of the day has taken by Mr.Bikiron Barua. The topic was Eng 2ndpaper about the Tense. During the classes I came to know lots of differences between my teachings that I have done on 27th October. At that time I came to know the importance of the experiences that a teacher should carry. In that class I also came to know how to explain the topics to the student , so that they could understand more.

Class IX (A) 28th October :-

It was 1:00 P.M. during this 4th period, my last day of class observation. I have come across lots of memories. The class was a bit noisy. Some the students were gossiping and laughing. So, Mrs. Masuma Akter madam called out a students and asked him to write those name whoever have talked during her classes and the name that written on the board should be punished . It was English 2nd paper and the topic was about voice change. She was explaining them how to change passive voice to active voice. After explain them they were asked to solve some sentences. Most of them did it correctly and madam gave them some more sentences as home work for next class.

Chapter VI

Teaching Experience

My first teaching experience was like an surprise for me as it was my first teaching experience I have never been to a class room as a teacher. I was so nervous at all the time . Than Mr. Bikiran Barua sir asked me not get nervous at all and introduced me to the class than told me to take the class . In this chapter I am sharing my experience :

Class VI(A):

I was 27th October morning almost 10:10A.M. my first class of my internship As I mention in the above that never been to a class before as a teacher. As I entered the room students were wishing me good morning as I . I started introducing myself to the students and asked them to introduced themselves one by one. Next I told them that I will be taking their English 2nd paper for today. I started teaching Tense. I have given them some sentence to solve and the most wonderful thing is that 90% of the students did it correct.

Class VI(B) :

It was my Second class on the same day 27th October at the afternoon it was 2:00 p.m. . Mrs. MasumaAkteer has guided me to the class and introduced me to the class that I would be taking their English 2nd paper. Introducing had been done within short period of time and I started teaching them tenses. Given them some sentences and told them to do that . After completing they submitted to me and after checking I came to know that most of the students made mistake. So, I explain them how to do it correctly. And at last bell rang out and they wish me bye.

Class VII(B):

It was my last class 28th October morning 10:15AM. I was asked by Mr. Bikiran Barua sir to take class instead of him. He asked me teach them about email writing. I went to the classroom. The class started wishing a good morning. Introducing myself and asked them too. I started the class by asking them does they know how to write email writing ?what is the use of it? How to start an email writing ?and how to finish the writing? Some of the students know how to write email writing . I asked them those who don't know how to write to raise their hand. Most of the students don't know how to write . So, I taught them how to write email writing.

Chapter VII

Overall Findings

The journey of this project which relate me something new experience in my life. Which includes all details of my study experience. That is more important towards my carrier. By taking classes my observation were :

- At first students were not much interested with the class. They were a bit noisy in the class and surprised themselves with my entrance in the class.
- Some of the students were very kin to learn something new. They were busy in asking my all details about my previous experience and they were very much happy with their new learning experience.
- Teachers were very much kind to me in this school. They taught me everything which were needful to the preference classes. Their behavior were just an amazing which I am not even expect from them.
- The school campus was very beautiful. Surrounded with the lots of trees and a big ground in front of the school premises. The cleanliness of the students attracts me like they are habituated with the environment.

Chapter VIII

Recommendation

Over all to my observation the school in very discipline well organized and developing. But there are some cases which they have to focus on collectiveness and group discussion among the teachers and students. In this case which improve their intellectual power and motivate power. Teacher's can be more conservative in the classes which can bring them a good result and bright future. They need to focus on extra curriculum activities such as, sports, dance, singing etc. The comparativeness of the school is highly appreciated but in some case they have develop in their own purpose.

Chapter IX

Conclusion

A teacher is a watch dog of the society and a backbone of the country. Who determine and prepare himself for the good wheels. Who takes all the responsibilities to make a child into a man and to a true human being . A teacher is a person who have the power to draw out a students attention, knowledge, power and a their abilities to figure out in their personal life. A teachers contribution in our life line is a bigger after the parents contribution. Which we can say teachers are the second contribution on our life.
