Executive Summary

Agrani Bank Ltd. is one of the scheduled private commercial bank in Bangladesh which is established under the banking companies Act 1991. The main motto of this bank is to make profit. One of the most important functions of Agrani Bank Ltd. is collecting deposit and giving loans.

Agrani Bank Ltd, like others Commercial Banks, are collecting deposit from clients and giving loans to clients for making Bank’s revenue. The employees of Agrani Bank Ltd. are very sincere about their work. They maintain a protocol to establish a good relationship with existing clients and they are also eager to search new clients. Agrani Bank Ltd. collected a big amount of deposit from clients in every month.

I have discussed about loans/ credit management system of Agrani Bank Ltd. in this report. The report has four parts, firstly introducing part, secondly a brief history of Agrani Bank Ltd., thirdly loans/ credit management and lastly findings and recommendations with analysis and references.

The objective of Credit management of Agrani Bank Limited is to minimize the risk and maximize banks risk adjusted rate of return by assuming and maintaining credit exposure within the acceptable parameters. The Credit Management department is responsible for upholding the integrity of the Bank’s profile.

Credit Management Department of Agrani Bank Limited conducted their functions by six wings. Wholesale Credit, Retail Underwriting and SME underwriting- these three wings of Credit Risk Management assess and approve the loan for the respective customers. Central Collection Unit collects the credit. Special Asset Management wings help the bank to recover Bank’s bad portfolio.

The Bank has a team for credit approval. Different tools and techniques are being used to evaluate a credit proposal. Retail Credit, Cards Credit, Authorization and Fraud Control, Central Verification Unit (CVU) are related with retail underwriting.

Although Agrani Bank Limited is successfully operating credit management, the Bank should improve in some areas which will take help the Bank to become the leader of banking sector.

**General Procedure of Sanctioning Loan:**

Branch Credit committee has delegation to give loan to a customer within a certain limit delegated by head office Credit Division and cannot extend facility to any customer beyond this limit. The customer can approach directly to the Credit Division of head office. So the process of sanctioning can now be described step wise:

- The customer will submit the loan application directly to the Credit Unit or to any nearest branch of Agrani Bank as convenience.
- Then branch send the application and necessary document to the Bangladesh Bank for CIB report.
- After receiving the CIB report from the Bangladesh Bank the branch considers it and forwards it to the credit unit immediately.
• Then the branch credit committee or credit unit inspects and verifies the information provided by the customer in the credit application and applies and due diligence for approval or declining the loan.

• If the branch credit committee approves the proposal, sanction advice is issued to the customer and asked to finish all other documentation and to give the required number of postdate cheques.

• Both the credit division keep the record of approved and declined loan proposals.

**Branch Credit Committee:**

This committee is to be headed by the Branch Manager and other member(s) to be selected by the Manager as well as consultant with Head Office. Responsibilities of this committee are as follows:

1. First responsibility to the Manager for each lending.
2. Know their borrower fully.
3. Comply with the applicable instructions, manual, circulars and other rules of the Banks as well as Bangladesh Bank Act.
4. Credit proposal submitted to Head Office, Credit division for established the policies and procedure.
5. Review and analyze the history of antecedent of the management personnel, their financial condition with comparative statement, latest Balance sheet, Income statement, operating result and supplementary facts and also personal net worth statement of the proprietor, partners and also the Directors.
6. Comply with necessary and customary internal & external control and safeguard.
7. Justification consideration for cover facility.
8. Take review and monitoring action of the credit.
9. Continuously reviewed the all credit facilities by the branch manager with the other member of the committee.
10. Continuously verification for review the project and find out the facts and make a report which is to submit to the Head office.
Security: Selection & Control:

Security is an element of risk that always present in every advance, in whatever degree a bank knew his customer personally and intimately, in whatever degree he has the confidence in the integrity and honesty of a customer. When a banker ordinarily takes as things assets, good, valuables, financial papers, surety, guarantee, etc. against the risk for lending is called security.

**Importance of Security:** Banks always lay stress on three elements while making advance

- Borrower’s integrity and honesty
- Genuine purpose
- Assurance of return of money advanced.

**Types of Security**

**Personal Security:** Security by which a borrower is personally made liable to repay the loans/advances. Demand Promissory Note, personal Guarantee, Bills of exchange, etc.

**Tangible Security:** Tangible assets like stock of goods, bonds, deposit receipts, bill of landing, bills receivables, warehouse receipt, real estate, shares, assignable, insurance policies, etc. are taken as security.

**Primary Security:** The security which is deposited by the borrower himself against lending is called primary security. Primary security is the main cover for the advance made by banks. Primary security is associated with the purpose for which the lending allowed. “Stock in trade, industrial plants, land & building, bills receivables, deposit receipt, etc which are deposited by the borrower shall be treated as primary security.

**Collateral Security:** Additional, subsidiary or secondary in addition to primary security is called collateral security.

**Direct Collateral Security:** Collateral security obtained from the borrower himself to secure his own account is known as direct collateral security.
**Indirect Collateral Security**: Collateral security given by a third party / persons to secure a customer’s loan account is called indirect collateral security.

**Cash Credit (Hypothecation)**

The mortgage of movable property for securing loan is called hypothecation. Hypothecation is a legal transaction whereby goods are made available to the lending banker as security for a debt without transferring either the property in the goods or either possessing. The banker has only equitable charge on stocks, which practically means nothing. Since the goods always remain in the physical possession of the borrower, there is much risk to the bank. So, it is granted to parties of undoubted means with highest integrity.

**Cash Credit (Pledge)**

Transfer of possession in the judicial sense of essential in the valid pledge. In case of pledge, the bank acquire the possession of the goods or a right to hold goods until the repayment for credit with a special right to sell after due notice to the borrower in the event of non-repayment.

**Export Cash Credit (ECC)**

**Term Loan**

These are the loans made by the Bank with fixed repayment schedules. The term of Investment are defined as follows:

- **Short Term**: Up to 12 months
- **Medium Term**: More than 12 and up to 36 months
- **Long Term**: More than 36 months
House Building Loan

This loan is provided against 100% cash collateral, besides; the land & building are also mortgaged with the bank

Loan against other securities:

Loan against other securities is a 100% secured advance, which requires no sanction from the Head Officer. It is sanctioned by marketing lien of FDR, ICB Unit Certificate.

Their Purchase

Their Purchase is a type of installment investment under which the Purchaser agrees to taka the goods on hire at a stated rental, which is inclusive of the repayment of principal as well as profit for adjustment of the investment within a specified period.

Demand loan

Loan (general)

ABL considers the loans, which are sanctioned for more than one year as loan (g). Under this facility, an enterprise of financed from the stating to its finishing, from installment to its production. ABL offers this facility only to big industries.

Loan against Imported Merchandise (LIM)

Advances allowed for retirement of shipping documents and release of goods imported through L/C taking effective control over the goods by pledge fall under this type of advance, when the importer failed to pay the amount payable to the exporter against import L/C, than ABL gives loan against imported merchandise to the importer. The importer will bear all the expenses i.e. the godown charge, insurance fees, etc. and the ownership of the goods is retaining to the bank. This is also a temporary advance connected with import, which is known as post import finance.

Loan against Trust Receipt (LTR)
Investment allowed for retirement of shipping documents and release of goods imported through L/C fall under this heard. The goods are handed over to the importer under trust with the arrangement that sale proceeds should be deposited to liquidate the investments within a given period. These are also a temporary investment connected with import and know as post-import finance and falls under the category “Commercial Lending”.

**Loan Documentary Bill Purchase**

Payment made against documents representing sell of goods to local export oriented industries, which are deemed as exports, and which are dominated in local currency/foreign currency falls under this head. The bill of exchange is held as the primary security. The client submits the usance bill and the bank discounts it. This temporarily liability is adjustable from the proceeds off the bill.

**Principles of the Lending**

The Project plan is analysis and taken decision around the project. The advance and loan department is vital for the analyzing. Then primary approval of the advance/debt program the last approval is passed from the branch manager. If the advance/loan amount over a secure figure, managers transferred the advance/loan about project to the supreme authority for final pass a loan. The experts in principal office find out particular plan ratios promoted and perspective about the capability of project. Bank calculate a debt proposal by as long as, few fixed variables.

- Repayment
- Safety
- Security

Most significant measure of assess advance/loan appeal is certainty of appeal. Security is consistent by the safety offered for the loaner and paying quantity of loaner. The approach of the debtor is also very vital attention. Liquidity refers the arrival of cash in the plan and its report. Profit is the circulation of blood in any financial organization. Before sanctioning
any documents other papers every person or every organization ensure their profit and also ensure to minimize of their risk. Bank or other financial take some security against loan or debt. When they are satisfied for the all documents and property legality then authority take further action. Bank cannot approval advance/loan by only depending on collateral.

The authority is must feasible one, who provides advance or loan. During approval/sanctioning any advance/loan Bank has to be fascinated about change of risk. Total amount money must not be expended amongst a tinny number of peoples. Moreover any plan must be rooted for national interest prosperity.

**Lending Risk Analysis (LRA)**

LRA is a very necessary and important analysis for taking decision whether the debt appeal is potential /negative. Many kinds of statistical, mathematical, scientific & managerial tools and appliance are needs to work under this analysis. National Bank limited maintains ethical form for Lending Risk Analysis, which related to m/s excel analyze much data/ information. It’s impossible to describe the whole LRA in Internship Report.

**Documentation:**

For the sanctioning any loan or advance required these frequent data or information below these docs are:-

Credit Approval

A financial institution must have in place written process and the approval authorities of individuals or committees as well as the basis of those decisions. Approval authorities should be sanctioned by the board of directors. Approval authorities will cover new credit and changes in terms and conditions of previously approved credits, particularly credit restructuring, all of which should be fully documented and recorded. Prudent credit practice requires that persons empowered with approval authority should not also have the customer relationship responsibility.

Depending on the size of the financial institution, it should develop a corps of credit risk specialists who have high level expertise and experience and demonstrate judgment in assessing, approving and managing credit risk. An accountability regime should be established for the decision trail of decisions taken, with proper identification of individuals/committees involve All this must be properly documented.
Credit Disbursement

Once the credit is approved, the customer should be advised of the terms and conditions of the credit by way of a letter of offer. The duplicate of this letter should be duly signed and returned to the institution by the customer. The facility disbursement process should start only upon receipt of this letter and should involve, inter alia, the completion of formalities regarding documentation, the registration of collateral, insurance cover in the institution’s favor and the vetting of documents by a legal expert. Under no circumstances shall funds be released prior to compliance with pre-disbursement
conditions and approval by the relevant authorities in the financial institution.

**CREDIT RECOVERY PROCEDURE**

Recovery procedure of Agrani Bank is the ultimate combination of time, effort of money. It follows four procedural steps to recover the lending amount, which is joint effort of Bank, society and legal institutions, which are shown below:
PRINCIPLES OF SOUND LENDING

A. Safety

Agrani Bank exercises the lending function only when it is safe and the risk factor is adequately mitigated and covered. Safety depends upon:

- The security offered by the borrower.
- The repaying capacity and willingness of the borrower is to repay the advance.

B. Liquidity

The liability of a Bank is repayable of demand or at a short notice. So the Bank has to maintain its liquidity at a sufficient level. Investment on building, plant, machinery, land etc. cannot be recovered quickly, so it is less liquid.

C. Profitability

Profit is needed to pay interest to depositors, depreciation, and maintenance, declare dividend to shareholders, provide or reserve against bad and doubtful debts etc. so like all other Banks Agrani Bank also disburse advances to earn profit.

D. Security

To ensure safety of advances, Banks takes different types of securities like MTDR, Sanchaypatra, land, work order etc. Banker should ensure that the securities are adequate, marketable and free from encumbrances.

ANALYSIS OF LOAN DISBURSEMENT, OUTSTANDING, CLASSIFIED AND RECOVERY SCENARIO:

It is the duty of the recovery department of the Bank to recover the landed fund within the stipulated time and if the borrower fails to repay the money within the said period Bank will declare him as a defaulter and recover the fund by selling the securities given by the borrower or by freezing his account or make a suit against him.

Major Findings

While working at Agrani Bank ltd, farmgate Branch, I have attained to a newer kind of experience. After the collection of data, I have got some findings. These findings are completely from my personal point of view. Those are given below:

1. There was a humongous growth in deposit & investment along with profit in 2018
2. They change high interest rate in home loan including reluctance in providing home loan.
3. They maintain a balance between loan and advances throughout the gear.

Recommendations

1. Agrani bank needs to reduce the rate of house loan. They also need to develop house loan information system.
2. Agrani bank should develop house loan information system.
CONCLUSIONS

There are a number of Private Commercial Banks, Nationalized Commercial Banks and foreign Banks operating their activities in Bangladesh. The Agrani Bank ltd. is one of them.
