Abstract

For my internship purpose, I went to Parra mound High School. It is located in Mirpur-12, Dhaka. This school was totally unknown to me. However I choose this school to get new experience. I think I am lucky when I get opportunity to complete my internship in this school. It provides a student opportunities to develop his professional skills. The first part in my internship report has two important things 1st one is 3 class observe and 2nd is class take. On the first day went the school and entered headmistress room. She checked all of my documents and permitted to observe and take class. She called a junior English Teacher and told him about me. Sir, warmly assured me that he would give me any kinds of help.

I observed Namita Rani Madam's class, Mr Akhil Chandra Das sir's class and Mr Partho sir's class. I realize that before taking class observation is most relevant. It helps perfectly know about teaching technique.

I also got the chance to take class. I felt nervous but I overcame my nervousness and taught them carefully. At last I can say these three days teaching experience make me as a skillful person.

Recommendations:

I become happy to complete my internship from this school. As it was a non govt. school but all academic curriculum is some student read government gif book.

All the teacher try to give their quality teaching. All the students very maintain their dress up. I observed 3 class each every class I have found their 100% attendance. It's really very positive side. Though they are not very much talent but their attendance show their agree to learn. If the authorities take special care of them they will be good performance in future. After all I say the school can be good student maker if the teacher more careful about the student.
