CHAPTER ONE

INTRODUCTION

About Internship

An internship is a Procedure of the profession training for professional careers. The internship mechanism as an interchange of services for skill between the student and his or her company. Internships are also helpful learning skills for students and almost an essential for any graduate. Companies are demanding that graduated have "real world" knowledge and internships are one of the finest methods for students to get that involvement.

On the achievement of the Internship I had required to:

- Achievement Knowledge about working environment.
- Be instructed to make a news bundle effectively.
- Improve my skills on reporting.
- Gain concrete information for newsroom activities.
- Improve my capability to make up news gratified.
- To increase communication ability.
- Be created in my workstation.
- Be prepared to achieve heaps of issues in work.
- Establish me as a full-time staff in this institute.
- To acquire about field reporting, editing & investigation.

What is an Internship and why Internship is important?

An Internship is a work-related knowledge background for undergraduates to generate hands-on work participation in work-related fields. Basically, an internship timeframe can be two or three months. We realize that having a University degree may be inadequate for to get a better Job in the present situation. Students must be extra able to prove themselves. After academic period, Internship bids us the chance to improvement from as a devoted experience. So we can state that Internship time is the utterance for our upcoming future which sets the foundation for a career.

During Internship we must necessarily to effort with several individuals in field and office. We joined with new individuals of various dimension and also our communication with various profession has developed day by day. Those Linkages will support us with getting references and find different platform to work. Through in my Internship season I gain experience with relevant work which will help me in building a strong profile.

We recognize that it's very much challenging to get a better place in job market without a sturdy resume. Institutions are more probable intrigued to procure one who has work skills. In university we were taking a longer time to finish our assignments, but in Intern times time are restricted. I realized that in the modern era of time each news and data spread far and wide inside a brief time. Must be able to understand the valuation of news. Internship fosters us to understand the value of time.

Duration of my Internship

I join my internship from September 25 to 5 December, 2019 at Jamuna TV under **News Department**. I have completed my Internship on 10 December 2018. In my internship period I worked 7 days in a week.

MY Supervisor at Jamuna TV

Under **Roksana Anjuman Nicole** I completed my internship. She was my supervisor at jamuna TV. She works as an Assignment Editor of Jamuna TV and also anchors different talk show. Such like: “Montri Shaheb”. From Dhaka University (DU) she was completed her graduation. IN 2007 from CSB News She started her journey in media sector. It’s a news-based Television station. As a Newsroom Editor, Presenter she is very much popular figure. Without any problematic situation Roksana Anjuman maintain the whole news generation framework smoothly.

After Discussion about news gathering techniques

Work experience of Internship

In my internship i mainly worked in Assignment desk under the News and Current Affairs Department. I have achieved a lot of experience from there. Jamuna Television is that types of Channel where 24 hours news. From 10 AM to 7 PM I stay at Jamuna TV. It's my office hour. Octopus software is uses in newsroom. Each and every desk and person have different ID and password. After went to my office, my fist task was to read the Assignment sheet and take in mind that where all the reporters are working. Then contact with them for information. Writing OOV from the reporter's information. I also read newspapers. I tried to find out what the different news pattern from TV to newspaper. I took id number from ingest for video footage which reporter are sent. After collecting id went to editing panel for edit the footage. In News & Current Affairs Department, I learned how to prepare a news and so on things.. All the member of Assignment desk was very much helpful. Newsroom editors help me in many ways. They teach me how news is designed or how a report is writing for television. Every day I wrote reports and my report are on air. It's very much pleasure for me. Which OOV I was wrote my supervisor checked it and finally Chief News editor Checked. If there needed any correction they told me and I followed there instruction.

Every day I try to give my best afford to write report without mistake. Edit any kind of OOV or sot is very much challenge because it touch the audience. That's why I try to finished my work smoothly.I have to face challenges when my supervisors introduced me wit From a lot of information find out the important and main things is very much challenging at first time but I overcome that matters Smoothly. All the members are very much interesting and there news sense is very much deep. They can easily make a story more interesting for the audience. At the beginning I wrote oov edit a lot. But day by day, the percentage of editing is going down. When I was very tired that time I went to jamuna and jugantor canteen and take a cup of coffee. When I felt very much pressure that time I was taking deep breath and try to make me cool. With multi-experience I have finished my internship. My internship experience helped me in my future life.

Special Experiences

In Internship time, I have gathered a lot of special experiences. Casino ovijan, Abrar murder, Rupnagar blast, Sakib All hasan issue, Shadek hossain khoka death, Bulbul attack, Onion price high are the main issues when I was in internship. I worked very items and help my senior in many ways. I give my 110% afford to make a strong report. I was given extra time in that's situation. Nusrat murder verdict is also a very special moment for me. I try heart and soul to make my report unique.

Chapter Four

EVALUATION OF LEARNING

Aloofness between Academic & Practical Experience

Academic learning is totally different from practical field. Internship is the best ways where we can measure our academic experience how much it helps our practical life. To be controlling in any kind of work, we must have the knowledge of both practical & academic education. In my academic period, I have availed much academic knowledge and also fieldwork experience. But, I feel that practical environment is totally different from my academic learning.

During my academic period, I don't think much about time. Our course teachers bestow us a lot of time to submit our assignment. But in practical life, punctuality must be maintained. In modern digital world each and every information feast from place to place very fast. So it's very easy to understand that the difference between professional and academic life. While practicing during our academic learning we have to face equipment problem. In our academic practical we have faces some equipment problem, because we are 27 members in our batch that's why, we have not done our work easily; there were also some limitation there. In professional period they provide me the best equipment to complete my assignment.

In academic period I have learned the method of gathering information and how to writing a news. How 5 W's and 1H is used for news, how to build a news like 'Inverted Pyramid Structure', the procedure of editorial works, morals and values of Journalism, all this things are same in academic & practical work.

Outcome of my Internship

I think that my internship knowledge help me in my future life. Which Experience I have picked during internship it's a valuable asset for me. Jamuna TV is the most popular media house in Bangladesh. I learn from here that how to use our knowledge for better report.

As a result of the internship:

- I have created a lot of sources.
- Generated Chances for my future life.
- Proved myself by my work and attitude.
- Create a better place in senior's heart.
- I have gathered knowledge a lot about electronic media.
- learned some unfamiliar terminologies.
- I have achieved the experience to communicate with renowned organization.
- I have learned how PCR work.
- In pressure period how to calm and quite I learn in my internship.
- I have newly discovered myself and my creativity it's help me in my future life and also my job sector.

Expectation & Experience

When I admitted in journalism department from that time our teacher told us to read Newspapers i try heart and soul to follow there instruction. Reading everyday multiple news and saw at least one prime hour news that's helped me what's doing in my internship. I expected that I'm going to a new world for learning and it will support me in future. Internship is for that students who are newly graduate and seeking entry in jobs. During internship my supervisor trained me, advised me and given me proper direction how to work smoothly in professional life. In internship period I understand about Bangladesh media system. This internship knowledge not only impact in my professional but also boosts up to build my self-confidence.

Expectations were to:

- Perceive my organization's philosophy, ideology, and public relations.
- Get fulfill idea of our media, especially broadcast journalism and their functions.
- Progress my communication ability and put on it in actual situation.
- Be effective to about decision making.

In addition, on this completion of my internship I expected to;

- To gain practical knowledge about electronic media.
- Practical knowledge for news reporting.
- Ability to work under much pressure.
- To know the news running procedure.
- Interpersonal Ability Development.
- Building a solid linking with different classes of people

- To recognize important of the news source.
- Skill of News collecting and reporting on information.
- Expanding network.
- Try to be aware with technical system.
- Identify the office atmosphere and prepared me like that.

Skills Development in Internship Period

My internship period at jamuna Tv for three month. It's a very short period I think. But in a short time I developed my skill and learn a lot about television station. I got chance to meet different types of people. I think that I'm very much lucky that I work under a energetic, dream lover supervisor. It makes me happier. All the people of my desk helped me how to be a great communicator or reporter. They helped me how a interview is cover. What's the rules and tactics are following during interview and reporting.

- Developed my typing speed.
- Aware about time management.
- Working experiences under newsroom environment.
- Learn how to give super.
- Improve in spelling.
- Improve news sense.

It was a huge prospect for me. I have gain knowledge a lot about journalism, discipline, office work, working system at office, etc. This will give me support for future life.

Opportunity for Future Career

Internship makes the opportunity to collect experience. During internship, I linked with a lot professional individuals & extended the zone of my networks. I think it will help me in my job improvement. I erudite about journalism job field from the classified and I think it's not a erroneous career for myself. I gathered new skills and it's given me a lot of confidence. I got the chance to gain teamwork skills.

Most significantly, I got chance to meet different types of peoples and practiced interacting skills while starting a network of qualified contacts and references. It unlocked a door to recommend on the next stages to take my job path. My internship period formed a chance to gain valued skill and accomplishments to enhance my resume. I improve my feature and creative writing, editorial writing, and so on for a solid resume. Without a solid cv and without experience at the present time very difficult to find out a better job.

Limitations of my Internship Program

In my internship period I had challenged some problems. Because it is differences between academic & practical. In Jamuna Television I was not a representative; I was temporary for three month That's why they didn't tell me how they work with their sources. They didn't share me how they handle political and other pressure. They avoid some of my question for safety. They treat me just as a internship student. That's why there some limitations for me.

CHAPTER FIVE

CONCLUSION

SWOT Analysis

Strengths:

- Trustable.
- Nonstop broadcasting news & others programs.
- Independent internal strategy making.
- Effective about news treatment.
- Always give Effort to cover all running matter.
- Always gives the latest news.
- Covers a grandiose area, not only Dhaka- centric.

Weaknesses:

- Jamuna Tv has sufficient resources but all are not utilizing properly.
- The website is not designed roughly.
- Lack of advertisement.
- Need to more space because there is lack of space.
- Lack of employees to cover any event as soon as possible.

Opportunities:

- Increasing professional relations.
- Linking with professional resources.
- Presenting all news in a program.
- New Knowledge Picked up.
- Familiar with new technologies.
- Online market can be provided opportunities.
- Scope to involve more individuals in several social media stage.

Threats:

- Political Influence.
- Increased competition.
- Litigations for misrepresentation for any news.

Conclusion

I believe that which experience and knowledge I have assembled in the time of my internship period it will be a great achievement for me. It will support in my future professional career. I deeply realized how I need to perform in my future to achieve my goal. I'm very much thankful to my university, department and also thankful the Jamuna TV authorities who gives me the chance to work with them. These 10 weeks help to open my eyes how the real world is, how need to perform here.

Recommendation

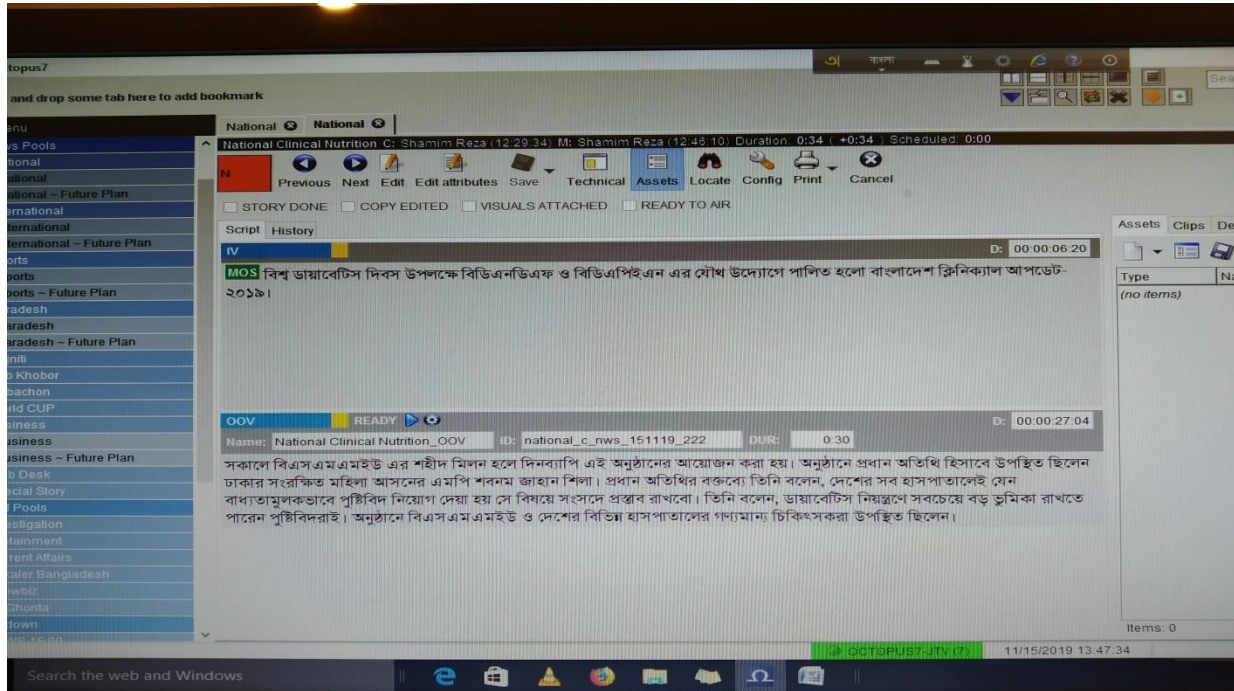

It is actually difficult for me to give recommendation. But I want to give some recommend to my Department and Jamuna Television. 10 weeks of internship is very much short time. At the end of the last semester of our degree we go to internship but if we go internship in the middle time I think it will bring a good result for us.

- I want to recommend Jamuna tv authorities Recruit additional Reporter.
- Training season must be needed for employees.
- Giving chance the fresher to work.
- Giving honorarium during internship it will encourage fresher.
- Recruitment process should be fair.
- Insufficient vehicle Services.
- Keeping eyes to develop YouTube page.
- More desks with computer needed for better work.
