**Subject:** Submission of the Internship report.

Sir,

It is a matter of great pleasure for me to submit my internship report on Asian Television. My internship under the news video editing department of Asian TV. From October 01, 2020 to December 10, 2020 (10 Weeks) I worked there.. I have tried my level best to fulfill the requirements of the report. I consider myself very fortunate to prepare this report under your guidance. This has been a great opportunity for me. It has provided me with a great scope of applying the gathered classroom knowledge in the practical field. During the internship period I got to know many new faces and developed interacting skills. I must mention here that I am extremely grateful to you for your valuable guidance and constant attention as and when required.

I will be pleased to answer any sort of query you think necessary as now and when needed. I am always available to share the pleasure of discussions.

Regards

.....

## **INTRODUCTION**

## **Introduction**

Name: Md.Torikul Islam

ID: 171-24-601

Department: Journalism and Mass Communication

Concentration: News Video Editing and Reporting

Career goal: Broadcast reporter Internship

Host: Asian Television Ltd..

Supervisor: Shahinur Rahman Shiblee

Deputy Chief Video Editor

Internship Start Date: 1 October, 2020

Internship End Date: 10 October, 2020

Working hours:24hrs/1week.

An internship is the position of a student who works in sometimes without salary, an organization in order to gain work experience. Internship is a way of on the job training for vocational careers. Internships for professional careers and part of jobs. In spite of the fact that understudies are regularly school, college and university. They can like be secondary school understudies or post-graduate grown-ups.. On occasion, they are middle school or elementary students. Most of the countries, internships for school children are called work experience and professional jobs . Internships may be paid or unpaid.. Unpaid and low-paid internships can run afoul of the lowest pay permitted by law laws, which sometimes have exceptions for educational positions.

An internship is a professional learning experience offers significant work related to a student's field of study and career self-interest. An internship gives the scope for career development, and to learn new skills. It offers the employer the scope to bring new ideas and steam into the workplace, develop talent and potentially build a pipeline for future full-time employees.

Video editing is the process of assembling, cleaning up and finalizing a video for presentation and output. It is used to describe post-production work. Done which is the work after all of the footage and shots have been taken. Than this shoots and footage used to come up with the final output.

I was interested to do every news video editing. At the first time, I was appointed to the news video editor at Asian Television. Than i was learning video editor under my supervisor. Those news video editing works help me to understanding the working environments and the things that I had to do before. As satellite television has become popular in Bangladesh, people can access various news known within short time. The reality for satellite television future is very challenging for digital technology. I am very happy as my internship supervisor at Asian Television. Asian Television is the leading satellite television in Bangladesh as the place of my first work experience. I had no idea about the challenges that were faced after interning in the professional world.

### **Significance of Internship**

An Internship is a work related learning experience for students to develop hands on work experience on occupational fields. Internship provides real world knowledge to pursue or gain the relevant experience. Intern students work for a fixed period of time that can be three or four months. Unpaid internships are very common but sometimes we see little paid internship too.

We know that having a university degree may not be enough for candidates to get a job in today's market. After our long academic learning, internship gives us the opportunity to learn from hand in hand, which gives us the flavor of real job experience. So we can say that internship is the investment for our future which sets the foundation for a career.

During internship we have to work with various kinds of people in office, thus we connect with new people of different levels and professions, and our network with various professions has grown day by day. Those networks will help us to get references and find new job opportunities in the future.

Through internships we gain knowledge and experience on relevant work which will help us to build a strong resume. We know that it's quite impossible to get a good position in a job without a heavy resume. Companies are more likely to hire one who has former work experience.

During academic assignments we were given relatively longer time frames to complete our assignments, but in professional life time frames are limited as news need to be published soon. We know that in this digital era every news and information spread around the world within very short time. We must have the proficiency to realize the value of real time news. Internship helps us to access the value of time management.

## **Purpose of this Internship**

On the completion of the internship I had wanted to:

- Gain knowledge about workplace conditions .
- Learn to make a news video editing successfully.
- Enhance my skills in news video editing and reporting.
- Acquire knowledge about Television activities.
- Develop my skill to video editing and reporting.
- To increase communication skill.
- Be organized in my work place.
- Be able to deal with everyday professional issues and meet deadlines.
- Establish myself as a full time staff in this organization.
- To develop my skills.
- To learn the art of producing programs.
- To learn about field reporting.

## **BACKGROUND OF MY INTERNSHIP**

My internship placement was a private TV Channel named Asian Television LTD. Asian Television is a most popular satellite television channel in Bangladesh. I was allowed to work as an intern in the News Department, Section News Video Editing of the channel where I was assigned to manage the video editing penal along with my co-workers.

### **Duration of Internship**

I have worked for two month in the Internship programme at Asian Television. My internship started on 1st October 2020 and officially ended on 10th December 2020. I worked there for around six hours every working day.

### **The Supervisor of Asian Television**

When I was interning at Asian Television, my supervisor was Shahinur Rahman Shiblee, Deputy Chief Video Editor of Asian Television. He was very helpful to me. # **CHAPTER FIVE**

## **EVALUATION**

---

### **Similarities and differences between academic learning and practical work**

As a student of Journalism and Mass Communication, I have gained lots of academic knowledge in last four years with lot of fieldwork experience. But the practical working situation and environment is quite different from academic learning.

To learn something in the class room and learn something at the field or work place is totally different thing. Internship is the best way to acquiring knowledge on something specific because there we can use both of our practical and theoretical aspects of learning.

During our academical practicing, we don't need to think about time. Our officer have given us enough time our course assignment to complete . But in our vocational life should be maintained. We know that in this digital era every news and information within very short time spread around the world .

### **Expectation and outcome**

As a student of Journalism and Mass Communication, working as an Intern on one of the popular Television in Bangladesh, Asian Television. I depended a lot on my academic learning. I understood academic learning and professional field are complementary.

I was interested to do video editing. At first, I was appointed to the news video editor panel in Asian Television. Those editing works helped me to understanding the working environments and the things that I had to do before.

After one month I could manage everything and that time I could easily understood what type of editing I had to select to be published news. I also learned how make a Package properly.

# **CHAPTER SIX**

## **RECOMMENDATIONS**

## **Recommendations**

It is actually difficult for me to give recommendation. But I want to give some recommend to my Department and Asian Television.10 weeks of internship is very much short time. At the end of the last semester of our degree we go to internship but if we go internship in the middle time I think it will bring a good result for us.

- ✧ I want to recommend Asian Television authorities Recruit additional Reporter.
- ✧ Giving honorarium during internship it will encourage fresher.
- ✧ Recruitment process should be fair.
- ✧ Need for better work More desks with computer.
- ✧ Keeping eyes to develop YouTube page.
- ✧ Training season must be needed for employees.
- ✧ Insufficient vehicle Services.

# **CHAPTER SEVEN**

## **CONCLUSION**

## **CONCLUSION**

My internship at Asian Television was the first experience for me to interning in any professional field. I am very happy as I got the opportunity to do my internship at Asian Television. Asian Television is on of the leading satellite Television Channel in Bangladesh and I was really fortunate to get it as the place of my first work experience. I had no idea about the challenges of interning in the professional world. I learned how to be punctual and finish my work on time. I must also mention my supervisor and colleagues at Asian Television.

I feel proud for completing my graduation from Daffodil International University which is one of the reputed private universities in Bangladesh. From the bottom of my heart I want to give thanks to my teachers and university authorities without whose help, it would have been quite impossible for me to complete my graduation. Specially I want to give a big thanks to my respected brother Biplob Raihan. Without him I could not have managed my intern in a major media like Asian Television.
