CHAPTER ONE

Introduction

What is an Internship?

An internship is mainly a short-term working experience for any organization or company. The main objective of an internship is to gain some entry-level exposure from a specific industry or company.

Most of the time, students opt to intern for gaining insight into the field they want to choose as a career. It is obviously working but the main purpose of an internship is to learn or gather experience.

The one doing an internship is called an intern. Usually, an intern spends his/her time on relevant projects or work, making connections with the field, and in the meantime developing skills and experience.

Some interns may receive a full-time job after performing well during the intern period.

Why Consider Doing Internship?

An internship is an opportunity for people with low experience, mainly students who can gain significant experience within a specific time. Especially, modern jobs prefer experienced employees. But how can a student gain experience if he/she hasn't even started anything?

By doing an internship, students get a good idea about the entry-level roles of an industry. Also, students can build a network around the specific industry.

Aside from that, students can also decide what type of role they are capable of holding. Most jobs prefer a candidate who has completed an internship. Modern jobs are getting competitive and day by day employers are considering working experience on the resume.

So, doing an internship is important for building experience and acquiring some unique skills from the industry. If anyone is lucky enough, they can get a full-time job just doing his/her internship.

Background of

The Daily Ittefaq has a very old and rich history as one of the oldest and significant newspapers in Bangladesh. The veteran politician Maulana Abdul Hamid Khan Vashani established the newspaper on 24 December 1953. Tofazzol Hossain or widely known as Manik Mia was the first editor of the newspaper.

At first, it was a weekly newspaper. But during the anti-Pakistan movement, the Daily Ittefaq became a daily newspaper. Manik Mia wrote a column named 'Rajnaitik Mancha' was very popular among a lot of people.

The newspaper played a vital role in conveying contemporary issues in Bangladesh. From the start, the Daily Ittefaq was a strong supporter of the Awami League. 1954 to 1971 is considered the golden time for the newspaper. Not to mention, the Daily Ittefaq is Bangladesh's first vernacular newspaper.

Well, President Ayub Khan censored the daily from June 17 to July 11 in 1966. He again censored the newspaper from July 17, 1966, to February 9, 1969.

Currently, Tahmima Hossain is the editor of the newspaper. It has all the sections of a modern newspaper.

In 2005, the Daily Ittefaq launched its online version. It is called the Ittefaq Online Section. Thanks to the online version, it has opened up a new dimension for readers across the nation. Even the online section has two versions: English and Bangla.

I received cordial support from him. He always helped me with any sort of problem. During my stay at the Daily Ittefaq, I learned plenty of things from him. His guidance kept me on the right track.

Duration of the Internship

My internship started in the second week of September 2021. I joined the Daily Ittefaq on September 12. After ten weeks of a busy schedule in the office and gathering experience, my internship ended on 20 November, 2021.

Chapter two

Activities during Internship

My Duties as a Sub-editor in the Daily Ittefaq

Starting my internship was an excellent experience for me. Even though I was handling the lifestyle section, I often visited the Daily Ittefaq Office. I had to visit the office to understand my task. I was assigned a specific time to attend the office, and I had to work there for a couple of hours.

Completing my daily task was not easy. At first, the supervisor taught me the basics. So, I was learning for the first couple of weeks.

My experience in the Daily Ittefaq taught me something valuable about journalism. It's not easy to manage a newspaper, let alone its online version.

Journalism is not about writing news stories or some lifestyle features. Instead, the newspaper crew is trying their heart and soul to research, edit and write honest, ethical news. I was starting to merge with the process too.

One thing for sure, even though I had a schedule for joining the office, my work schedule was unpredictable. I had to keep updated about the recent lifestyle news and latest trends. During my intern's last weeks, I had to pull an all-nighter to complete the bulk of work piling up for Puja.

I completed ten whole weeks as an intern in the Daily Ittefaq, and my sub-editor duties are followed here:

Editing News

Editing news was a regular duty in the Daily Ittefaq. The online version needs to update news all the time. Posting news within a few minutes is hard. But contributors are working for Ittefaq. Before posting their news, I was responsible for ensuring the news stayed authentic and free of errors. Sometimes, the task was boring, but I learned a lot about proofreading and researching information.

Covering events

A couple of times, I was assigned to cover events for Ittefaq. During the pandemic situation and during Puja, the supervisor assigned me video news. It was an excellent

opportunity for me. I had to write a special report where I interviewed journalists, psychiatrists, and women.

Publishing news online

The supervisor gave me access to the website of the Daily Ittefaq. There I had to publish news and features. Keeping an eye on the published news was also a part of my duty.

Editing photos

Before publishing news, I had to edit photos. According to the Digital Act, even photos have copyright. So, I had to create a unique image for every news item.

My supervisor gave me a basic idea of Adobe Photoshop and Adobe Illustrator. Also, one of our courses covered the issue. So, it gave me confidence.

Writing special features

While completing my internship in the Daily Ittefaq, I had to write a couple of special features. I had to interview the people closely attached to the feature itself to write these features. The experience was enjoyable for me.

Multimedia stories

Sometimes Ittefaq wanted to make the platform interesting for people in Social media. Also, Ittefaq had to create video documentaries for any special occasion.

Not to mention, Ittefaq had some special plans for Multi-media stories.

I worked with some of these multimedia stories. During the last weeks of my stay at Ittefaq, I directed a multimedia story.

Voice-over

Ittefaq created special documents, features, and videos for different occasions. Most of the time, I was picked for voice-over duty.

First, I gave a voice-over to a video for the anniversary of Ittefaq. It was a pleasing experience for me. The whole crew supported me till the end.

I wasn't nervous at all. In my academic life, I was always performing. So, it gave me the confidence to go on with the assigned task.

News Bulletin

I had to do a news bulletin during the last three weeks of my internship. Most of the time, I had to create the script. It was tiring work but I learned a lot from the task.

Chapter Three

Learning Opportunities and Experience

Learning Possibilities

My internship at the Daily Ittefaq was both bitter and sweet. I had a fair share of great learning experiences, and sometimes, the work pile was tiring for me. But all these pieces give me a bright idea of the journalism industry.

First of all, I was able to work with real professionals in the industry. There are many people experts in online journalism. They gave me advice and taught me some valuable things.

If I want to think about this opportunity, I have never had any idea about journalism. I had a passion for becoming a journalist. My family supported me, and it was exciting when I started my internship.

Working up and close, I found that online journalism is not easy. It is fast, short, and, most of the time, less insightful.

Not to mention, working with news is not an easy task. You have to put your heart into it to make the news free of errors.

I learned how to detect proper news and how to attract readers. It was a wonderful experience.

Finally, the workspace environment was new for me. It also helped me understand how workspace can control a whole industry.

Technological Facility

During my internship at Ittefaq, I gathered technical knowledge. In the office, I had a small desk very comfortable. There was a desktop computer where I always completed my work.

The Base Station: All the software on the computer was up to date. The office provided stable internet connectivity and a Wi-Fi facility. So, surfing online was not problematic for me.

For Editing News: I used MS Word for editing news, writing scripts. I collected all the news via Google docs. This way, I collected all the data and organized them.

For Editing Photos: I used Adobe Photoshop for editing my photos. I had the Google Chrome browser work just fine for surfing the web.

For Voice over: While doing voice-over, I learned a thing or two about audio editing and audio recording.

Special Experience

While working in the Daily Ittefaq, Bangladesh was still under the effects of a pandemic situation. I remember I was locked inside my house for three whole months. But I had to publish news online and gather news around the nation. Sometimes I was assigned with some special news cover for interviews.

Interviewing people was one of the best experiences for me. I attended the miss universe Bangladesh program in Hotel Radisson. So, it was a good experience for me.

Chapter Four

Learning Experience Evaluation

Differences between Academic Learning & Practical Work

During my academic program, I was introduced to several sub-editing courses. At first, the whole concept was easy for me. But after joining a professional arena, I began to realize how hard the job of a sub-editor can get.

At Daffodil International University most of our courses focus on print journalism the most. We are also taught about other media sectors like television and radio. However, online journalism is completely different.

Currently, our university courses are trying to introduce media studies more. Anyway, my academic knowledge helped me to assess the situation.

Especially, how to write a title and create news was pretty helpful at the beginning. Slowly but maturely I started to get a grip on writing news perfectly.

Expectation and My Experience

Before starting my academic career in Journalism, Media, and Communication Department, I had a vague idea about journalism. But I was determined to become a journalist. Well, when I applied for an internship, I was nervous. I was always reading multiple newspapers and online mags.

So, I was expecting to investigate and get an exciting experience. However, working for a daily newspaper is not that exciting. Most of the time, it's a little boring to edit news and inspect all the necessary details. The actual tasks of a journalist are hard.

In a way, the actual task is somehow exciting too. Writing news can be difficult. Yes, writing 200 to 250 words of news is difficult. LifeStyle section needs a lot of new concepts and ideas. Finding sufficient news and interesting topics were hard and writing them was sometimes boring for the workload.

But I learned a lot of new things in the process. And the working environment was great.

The Skills I Developed During Internship

I was a sub-editor for the LifeStyle section in the Daily Ittefaq. So, I was always writing LifeStyle news and features. Aside from that, I was assigned for a news bulletin and video script writing. While completing my internship, I developed a set of skills that are sure to help me in the future of my career as a journalist.

While completing my internship, I developed the following skills:

- ❖ Writing News
- ❖ Writing Proper Headlines
- ❖ News Editing
- ❖ Video Script Writing
- ❖ Voice Recording
- ❖ Voice-over skills
- ❖ News Presentation
- ❖ Field visit preparation
- ❖ Choosing the right words for writing something
- ❖ Time management
- ❖ Exploring Online Resources
- ❖ Researching and Gathering News Data
- ❖ Translation Skills
- ❖ Developing Social Relations
- ❖ Professional Attitude
- ❖ Gaining Confidence

Future Opportunities and My Career

Internship can enhance a student's academic career, personal and future plans. No doubt, the experience can help one build future goals.

Considering the modern situation, almost every industry seeks an experienced employee. From the start, they want someone who can perform the job neatly. But what about a student just starting his career life? Where will he/she acquire experience? The internship period can help them acquire experience. My internship period helped me with my connections. It helped me build connections with others and gain insight into the journalism industry. I was able to work and gain time management skills. Not to mention, my internship period helped me gain some valuable skills required for online journalism. Also, I was able to contact a lot of professionals from the industry, some people became my mentor. So, the experience was worthwhile in a lot of ways. If I want to keep working in the journalism industry, I can easily do so without considering staying stuck with a set of problems.

All these experiences can help me design a strong resume and Hopefully, I can use the experience of working with a pioneer daily newspaper.

Chapter Five

Conclusion

SWOT Analysis of Ittefaq Online

Strengths

- ✓ Authentic and trustworthy
- ✓ Covers various aspects of LifeStyle
- ✓ Has a good reader base
- ✓ User-friendly web platform
- ✓ Good content quality

Weakness

- The website design needs a little improvement
- Need a better office management
- Not enough updated tools or software to support editing
- Proof-reading needs a little work
- Not enough employee for covering news

Opportunities

- Can appoint a few more employees
- Facilities can be increased
- Office space can be increased
- Management can be slightly better

Threats

- Misrepresentation of any news or information
- Online platform is immune to hacking

Recommendation

I am glad to work for one of the pioneer newspapers of Bangladesh. My gratitude towards my seniors and advisors cannot be described using words. However, I don't think just three months or 10 weeks of internship period is not enough by any means. In order to make the experience much better, I would like to recommend some ideas:

- ✓ Daffodil International University can increase the duration of the internship period. This way, students can easily acquire sufficient experience during the internship program.
- ✓ I think extending the internship period from 3 months to 6 or 7 months should be a better idea.
- ✓ I think the university should not cover any course while the internship. This way, students can keep their attention towards the internship program.

Conclusion

So far, my internship period in the Daily Ittefaq was positive. I had a fair share of good moments and bad moments. However, it was the experience that matters the most.

I was lucky to work with some talented journalists who helped me as my mentors. I am greatly indebted to them for their support and help. Of course, I sincerely thank my university for providing me with the opportunity to work with a great newspaper.
