ACKNOWLEDGEMENT

First, I express my heartiest thanks and gratefulness to almighty God for His divine blessing makes us possible to complete the final year project/internship successfully.

I really grateful and wish our profound our indebtedness to **Dr. Shaikh Muhammad Allayear, Professor & Head**, Department of MCT, Daffodil International University, Dhaka. Deep Knowledge & keen interest of our supervisor in the field of “*Film and Media*” to carry out this project. His endless patience, scholarly guidance, continual encouragement, constant and energetic supervision, constructive criticism, valuable advice, reading many inferior drafts and correcting them at all stage have made it possible to complete this project.

I would like to express my heartiest gratitude to Dr. Shaikh Muhammad Allayear, Professor and Head, Department of MCT, for his kind help to finish our project and also to other faculty member and the staff of MCT department of Daffodil International University.

I would like to thank my entire course mate, senior and junior in Daffodil International University, who took part in this discuss while completing the course work.

Finally, I must acknowledge with due respect the constant support and patients of my parents.

ABSTRACT

Drug addiction is a disease. It affects a person's brain or behavior. A drug addict person is preoccupied with thoughts of drugs. They always thinking about to buy drugs and take drugs. When anyone discuss against drug, they felt shy or guilty and left that place. They do lot of anti-social and bad works under the influence of drugs and they forget everything when the effect goes away. They even don't know why they are taking drugs. They always hide themselves from the outside world.

Everyone says that drug addiction is a bad habit. They run around a drug addict and look at them with a disgusting eye. But they do not help them to deviate from this path. they Everyone thinks that sending them to the rehab center will help them to come back from this path. But it's not true.

A drug addict can fully come back by his self-realization. His family and friends can play a big role. They should always be friendly with him and to do whatever it takes to keep him away from drugs. So, that's not the perfect way. In our short film we tried to show about the drugs addict mentality and mind condition. And also shown that how effective is **“SELF REALIZATION”**.

CHAPTER 1

INTRODUCTION

Drug addiction is a curse for society. Usually drugs/medicine are taken to get rid of pains. According to the patient's condition, the doctor prescribes to take a certain amount of medicine. A few people take overdose of these medicines as an addiction. At a time, they become deeply addicted to it. Many people become addicted to drugs out of curiosity. It affects persons' brains or behavior. Drug addicts are disrespected in both social and family aspects. People should not treat them with contempt and help them to get out from addiction. In our story, a lonely boy, who is addicted to drugs, is emotionally disturbed by the situation surrounding him and the previous events in his life. He tries to accept his reality but the entity inside him shows him the opposite. And he started seeing his and the society's problems that he used to face. He hallucinated all the odd events of his life and got scared about it. There comes self-learning whatever he is feeling is not right and he has to overcome from it. So, he tried to skip his past and want to live a good life which he left behind.

CHAPTER 2

THE HISTORY OF CINEMA

There is no clear starting point for the history of film. The short film made by the Lumiere brothers in Paris on December 28, 1895, is thought to be the first technical film in the world. After the success of the Lumiere brothers, film companies and studios opened up all over the world. In the first 10 years of motion pictures, film went from being a novelty to a well-established form of mass entertainment. In the beginning, movies were short, black and white, and had no sound or steady camera.

Over a number of years and with the help of a number of shots, the technical language of general cinematic language. Movements of the camera, the size of the field, the angle of the camera, and the way shots flow into each other are all important parts of a film's story. At the end of the 1890s, fantasy films made special effects (VFX) a big part of movies. Many effects were either too hard or impossible to do in order to add more magic to the movie experience.

2.1 History of Bangladeshi Cinema

Bangladeshi movies are made in the Bengali language and are made in Dhaka, Bangladesh. Since the 1970s, people often call it Dhallywood. The most popular style of film in Bangladesh is melodrama, which was popular from 1947 to 1990 and is still popular today. In 1898, the Bradford Bioscope Company brought movies to Bangladesh. The first full-length Bengali language movie came out in 1956. It was called "Face and the Mask." Many Dhallywood movies were based on Indian movies, and some were unofficial remakes of movies from the 1970s or earlier. During the 1970s, 1980s, and first half of the 1990s, Bangladesh made a lot of movies that did well.

In 1970, 41 movies came out. *Shorolipi*, by Nazrul Islam, *Taka Ana Paay*, by Zahir Raihan, and *The Jibon Theke Neya*, also by Zahir Raihan, stood out.

From a business and critical point of view, the 1970s and 1980s were the best time for Bangladeshi movies. During this time, many actors and actresses were popular. Abdur Razzak was the most financially successful actor of the time, but Kabari, Shabana, Bobita, Farooque, Shabnam, Shuchanda, Alamgir, Sohel Rana, Amol Bose, Bulbul Ahmed, Zafar Iqbal, and

others were also popular. In West Bengal in the 1960s, 1970s, and 1980s, Uttam Kumar was a big deal. Chutir Ghonta (1980), Jonmo Theke Jolchi (1982), and Bhat De (1984) are all important works.

In this decade, directors like Tanvir Mokammel, Tareque Masud, Morshedul Islam, Humayun Ahmed, Nasiruddin Yousuf, and others were known for their work. The actors who stood out were Alamgir, Jashim, Ilias Kanchan, Nayeem, and Salman Shah.

Since 2005, most Bangladeshi movies haven't done well at the box office, and Bangladesh makes about 100 low-budget movies a year that are vulgar. This decade's most popular movie was "Monpura."

2.2 Glimpse of VFX

VFX means visual effects. Which is the process of adding extra visual effects to a live-action film's background. There are a few different types of VFX. Like animation, modeling, computer-generated imagery, simulation, matte painting, etc. VFX films include Jurassic Park, Inception, Avatar, Avengers, Matrix, and Iron Man.

CHAPTER 3 CASE STUDY

3.1 Case Study Overview

In Bangladesh social problems are big issues. Mental health is not a concern in our society. So, most of the youth facing mental issues which drag them to addiction and separated from others. To create this film, we watched so many short films. But we are truly inspired from a movie named “BAISHE SRABON”

3.2 Problem Identification

The subject that we have focused on working on, in the past many people have gifted very beautiful work on this subject. But it seems to me that some more aspects can be highlighted in this regard, we will highlight those aspects here.

- In previous works we see drugs as a curse but no one showed what can cure this.
- Past work has shown the side effects of drugs but no one showed how to overcome from it.
- Moreover, most of the works shown how or what happens with drugs but not how its effect our mind.
- Most of them didn't show how to unlearn.
- When it's come to drugs it never showed how the cycle works.
-

3.3 Objectives

A lonely boy, who is addicted to drugs, is emotionally disturbed by the situation surrounding him and the previous events in his life. He tries to accept his reality but the entity inside him shows him the opposite. And he started seeing his and the society problems what he used to face. He hallucinating all the odd events of his life and got scared about it. There comes self-learning whatever he is feeling is not right and he have to overcome from it. So, he tried to skip his past and want to live a good life which he left behind.

3.4 Related Work and Research

We did not find any stories or works on the topic. But in the Bengali film “Baishe Srabon” directed by “Srijit Mukherji”. In this film they attempted to portray through a song which name is “Ek Bar Bol Nei Tor Keu Nei”. The main character hallucinates how the surrounding characters behave with him, through his perspective.

3.5 Idea or Concept Generation

We saw a lot of work done in the past, we did a case study with them, the work was really beautiful, but we were able to select some problems from there. We want to highlight those issues through a short film. Because people are so busy these days, maybe not everyone can afford to spend a lot of time watching a full movie that’s why we make short film.

CHAPTER 4

VIEWER RESEARCH (Discover & Define)

4.1 Target People

Our work is especially for youth. On the other hand, it is a learning for teenagers how you can unlearn things from your life.

4.2 Target People Analysis

Name: Nishan

Sex: Male

Age: 24

Occupation: Student

Opinion: I never smoked. Because I never feel like to have it. And this thing is not seeming cool to me. I always tried to avoid those things. I have seen some people got addicted and they behave like mad. And I don't like these things. I don't think people can overcome addiction because getting addicted is easy but getting out of it is tough.

Name: Galib

Sex: Male

Age: 23

Occupation: Student

Opinion: Yes, I do smoke. I just do smoking nothing else. I think smoking gives me strength to overcome my pressures and relaxation for some time. I never did drugs. One of my friends did drugs and because of overdose he died. Till then I hate drugs this thing is deadly and worse than ever. If you do hard core drugs then you never ever can come back from it. This is all about your mentality if you are mentally strong enough you may overcome it.

Name: Saleha

Sex: Female

Age: 23

Occupation: Student

Opinion: yes, I do smoke. I was addicted and now I think that was the worse part of my life. When I used to do drugs, I forget things I had memory losses. Now I quit drugs. Because I realized that part of my life was the worst part. Now I'm trying to quit smoking.

Name: Hasib

Sex: Male

Age: 28

Occupation: Job holder

Opinion: Yes, I do smoke. Because I am addicted to so many things and I can't avoid it. Yes, I do drugs and now this point of my life I can't avoid it. Without drugs I can't even think properly. This is become a part of my life. I have faced so many consequences such as hallucination, bad dreams, anger issue, selflessness. I know all the things but I can't avoid drugs now.

Name: Raha

Sex: Male

Age: 23

Occupation: Student

Opinion: Yes, I do smoke. I smoke because its works like a stress relief. Addiction is like a temporary relaxation. Which is not a solution of anything. Yes, I did but I have self-realized effects of drugs and quit it. I think overcome this thing is hard but not impossible if only you want you can do it and overcome it. Life is too short to regrade. So, I left me regrades behind and quit drugs.

4.2.1 Psychology

A person with an addiction takes drugs or does things that make them feel good, which makes them want to keep doing them even though they are bad for them. Use of drugs like alcohol, inhalants, opioids, cocaine, and nicotine, as well as behaviors like gambling, can be signs of addiction.

There is evidence that addictive behaviors have the following key neurological traits: They involve reward and reinforcement brain circuits as well as the neurotransmitter dopamine. Also, like other highly motivated states, they lead to the pruning of synapses in the prefrontal cortex, which is where the higher functions of the brain are located. This makes it so that attention is hyper focused on stimuli related to the target drug or activity. It's important to know that these changes can be fixed once the substance or activity has been stopped.

Use of drugs Internal health problems like depression and anxiety, as well as other pre-existing problems, are more likely to go along with diseases and gambling habits. Problems with drugs and gambling not only affect the same parts of the brain, but they also respond to many of the same treatments.

Substance abuse and gambling diseases are both complicated illnesses that change the brain's price, foundation, motivation, and memory systems. They are different because they have less control over how they use, social impairment, which means that their daily routines and connections are thrown off, and hankering. Continued operation is often bad for relationships as well as work or school obligations.

Another thing that sets dependencies apart is that people keep doing the activity even though it hurts them physically or mentally, and even if it hurts them more the more, they do it. Most of the time, a person's tolerance for a substance grows as the body gets used to it.

Because addiction affects the executive functions of the brain, which are centered in the prefrontal cortex, people who develop an addiction may not be worried that their actions are hurting themselves and others. Over time, a person's condition may be shaped by their desire to get pleasure from the substance or gesture. All dependencies have the potential to cause feelings of hopelessness, failure, shame, and guilt, but research shows that recovery is the norm, not the exception. There are many ways to get better. People can get better at being physically, mentally,

and socially on their own. This is called "natural recovery." Others benefit from the help of peer-based or community-based networks. And still others come to the conclusion that clinically-based recovery with the help of licensed professionals is best.

Recovery is not always a straight path. Relapse, or a rush of drug use, happens often, but it's not the end of the road. Experimenters say that the risk of relapse is the same for people who get rid of a dependency complaint five times as it is for the general population. Neuroscientists say that the synaptic viscosity is slowly getting back to normal.

4.2.2 Geographical Psychology

Medicine dependence is a common problem in all societies around the world right now. The main goal of this study is to look at the social, mental, and family aspects of drug dependence, as well as the effects of drug dependence on health, family, and society. In the past, stopping people from becoming dependent on drugs was one of the biggest problems in almost every country. Bangladesh has a lot of people and is still developing, so this is a big problem that affects a lot of people, especially young people. Medicine addiction is a terrible crime that destroys social harmony, family morals, social values, the addict's future academic career, family relationships, and puts the addict's health, mind, and safety at risk. It lowered the social status of a family and put a man's social, profitable, and unique life at risk. It also led to a wide range of crimes in society. Bangladesh is quickly becoming a place where more and more people are addicted to medicines. This is especially true for teenage boys, both in and out of school. The number of girls who are addicted to medicine is also scary. Boys and girls are getting hooked on medicines for many different reasons. Most people who become addicted to drugs take them for the first time before they turn 18 and do it just for fun, under the pressure of a friend, or out of sheer curiosity. The main point of this study is that it will be an important part of getting people in Bangladesh off of drugs.

4.2.3 Education/Culture

No one cares about mental health in Bangladesh. Most teens and young people are sad and have problems with their minds. There are so many different campaigns going on, but none of them work. Bangladesh needs to do a better job of making people aware of mental health and addiction. Addiction is a serious problem, so everyone should know what it is and what it can lead to.

4.3 Survey Questions/Form/Creative Brief

- 1. Do you smoke?**
- 2. If yes then why? If no then why not?**
- 3. What do think about addiction?**
- 4. What consequence you have faced after doing drugs?**
- 5. Do you quit drugs?**
- 6. If yes then why you quit? If no then why not?**

4.4 Contents Medium

We saw a lot of work done in the past, we did a case study with them, the work was really beautiful, but we were able to select some problems from there. We want to highlight those issues through a short film. Because people are so busy these days, maybe not everyone can afford to spend a lot of time watching a full movie that's why we make short film.

CHAPTER 5

IDEA RESHAPING

5.1 Idea to update [Plot Creation]

We went to our target people based on our ideas and analyzed them and based on their statements we reshaped our ideas. We reshape our idea and we make a story from our idea.

5.2 Character update

Main Character:

Name: Arif

Age: We are presenting Arif as 23 years. At first, we see him as a student.

Character 2:

Koby

Age: 23

Character Brief: He is his inner creative being which comes as a koby.

Character 3:

Ripu

Age: 24

Character Brief: She is the symbol of his odd evens.

5.3 Dramatically Theme Analysis

Here we have a student who is a drug addict and mentally disturbed with his own and social crisis. We portraited his unlearn processes by the drama.

5.3.1 Environment Creation

Since we will present in our selective content the issues of drug, mental health, social insecurity, and hallucination, so our environment will represent both of the outdoor environment and domestic environment.

5.3.2 Emotion/Sense Analysis

Here we will deal with a drug addict emotion and his hallucination. And his mental breakdown. In securities about personal beings.

CHAPTER 6 STORY WRITING

মিনিং ফ্যানটি ঘুরছে খুব ধীর গতিতে। টেবিলের উপর রাখা ঘড়িতে সময় দেখা যাচ্ছে ১ টা বেজে ২০ মিনিট। রাস্তা সদ্য সাদক গ্রহণ করে আর্মিফ টেবিলের উপর সব ফেনে রেখে উঠে পড়ে। ওয়াশব"স থেকে পানির শব্দ ভেসে আসছে। আর্মিফ হেঁটে এসে ওয়াশব"সের ভেতর ঢুকলো। চোখেসুখে পানির ব্যাপটা দিয়ে র"সে ফিরে এলো। নিস্ফ কিছু বই টেবিলে খুব অল্পে পড়ে আছে। সাদকদ্রব্য ছড়িয়ে ছিটিয়ে টেবিলটার উপর। একটা কস্পিত হাত কিছু কাজে রুতা ঘিরে ধরেছে চারপাশ। ক্রমশ অস্থির হয়ে ওঠে আর্মিফ। নিস্ফরতার এ দেয়াল ভেঙ্গে চিংকার করে ওঠতে গিয়েও কোথায় যেনো তার চিংকার বিলিন হয়ে যায়। নিশ্চিতি রাত। হালকা একটা গানের শব্দ ভেসে আসে। "People are strange, When you are a stranger, Faces look ugly when you are alone." আর্মিফ বেড়িয়ে পড়ে। বন্ধ ঘরে তার দম ক্রমশ বন্ধ হয়ে আসছিলো। হাঁটতে থাকে সে। সাথার ভিতর স্দু যন্ত্রণা, ঘাসে ডেজা শরীর। সে তার আশে পাশে কোনো মানুষ দেখতে পাচ্ছে না। না দেখাই হয়তো স্বাভাবিক। গভীর রাত। তার মনে হচ্ছে তার সাথার চিন্তাগুলো ক্রমশ জীবন পাচ্ছে। জীবনড চিন্তা আর কল্পনা গুলো তাকে ঘিরে রয়েছে। আর্মিফ খুব শান্ড ভাবে রাতের গভীরতার মাঝে মকল সৌন্দর্য বজায় রেখে এক মনে হাঁটছে। সামনে আলো দেখা যাচ্ছে। আর্মিফ হাঁটতে হাঁটতে একটি দেয়ালের পাশ দিয়ে হেঁটে চললো। সে দেয়ালে কিছু বজু বয়ান লিখা ছিলো যা তার চলার সঙ্গে সঙ্গে সৌন্দর্য না ভেঙ্গে নীরব প্রতিবাদে আধিখেতা। কিছু দূর যাওয়ার পর হঠাৎ তার চোখের সামনে কিছু একটা আয়ব আবছা ভাবে ভেসে উঠলো তার পর সে বেশ অদূরে রাস্তায় একটি সাদা কবুতর মকল অবাস্তব স্বপ্নের প্রতীক হিসেবে রয়েছে। কবুতরটি নির"পায়। বন্ধ খাঁচায় অবহেলিতভাবে পড়ে রয়েছে সে। আর্মিফ সে কবুতরের মাঝে নতুন কিছু খুঁজে পায় না। ঠিক তার ডান-পাশেই দেখল একটি মহিনা পরনের শাড়ি, অদ্ভুত চেহারা (চেহারার এক পাশ বিদ্যুটে আর অন্যপাশ স্বাভাবিক)। চুলগুলো রাতমে উড়ছে, পরম আদরে ধরে রয়েছে একটি কালো কবুতর। আর্মিফ পা রারালো সামনের দিকে। সামনেই দেখল একটি কাকতালুয়া যা সাধারণ কাকতালুয়া যা না ঠিক যেন জীবনড কাকতালুয়া শুধু সাখা লাড়াচ্ছে এবং কাকতালুয়ার গলায় একটি ফাঁস আর সে কাকতালুয়ার ঠিক সামনে বক্তা যার মুখ রাস্কসের মুখ একটি উঁচু জায়গায় দাঁড়িয়ে আর নীরব কিছু শ্রোতা যাদের সাখা ঠিক দেখতে গাঁধার সাখার মতো তারা সবাই হাঁটু গেড়ে বসে রয়েছে। আর্মিফের মনে হল সবকিছু তার গুলিয়ে আসছে এবং তার চিন্তা ধারা লোপ পাচ্ছে। সে যা দেখতে চাচ্ছে না তা দেখতে পাচ্ছে, যা দেখতে পাচ্ছে সেগুলো তার মনের অব্যক্ত কথা বা চিন্তাধারা তা ভেবেই সে আরো ভীত মংকোচিত হয়ে আরও সামনে এগিয়ে গেল। রাস্তার পাশে একটি অবয়ব দেখল সে। পাশ কাটানো সময় দেখলো সেগুলো হাতে গড়া সাখা বিহীন মূর্তি ছাড়া আর কিছুই নয়। পরনে কিছু জীর্ণশীর্ণ খবরের কাগজ আর সে কাগজের কিছু কিছু অংশ ছেড়া আর হাতে দড়ির মতো কিছু বাঁধা। আর্মিফ হঠাৎ দোড়ানো শুরু করলো। শব্দে রাস্তায় একটি ছেনে দোড়ে চলছে। হঠাৎ সে আড়াল থেকে দেখলো রাস্তার পাশে বসে একজন লোক। পরনের চটের বস্ত্র হবে। বিস্ময়কর ভাবে লোকটির হাতে একটি একুরিয়াম, তাতে একটি সাছ। লোকটি তার হাতে থাকা একুরিয়ামটির ভিতর থেকে একটি সাছ পানি থেকে তুলে নিলো এবং তার দিকে তাকিয়ে অদ্ভুত এক হাসি দিলো..... এসব দেখে আর্মিফ দোড় দিলো আর সাথে সাথেই আর্মিফ তার র"সের বিছানার উপর ঘুম থেকে উঠে বসলো আর সে তার সাখায় পুচ্ছ ব্যাখা অনুভব করলো। তার চোখে সুখে এক ভীতিকর পরিস্থিতি সৃষ্টি হয়েছে। ঘড়ির দিকে তাকিয়ে দেখলো রাত প্রায় ৫ টা বেজে ২৫ মিনিট। সে সাথে সাথে বিছানা থেকে নেমে দেরি না করেই একটি ব্যগ

এ কক্ষিপত হাতে তার সকল সাদকদ্রব্য নিয়ে বেঁধিয়ে গেলো। তার পর সে হাঁটতে হাঁটতে জনমানবহীন
বাসভূমি এতে পৌঁছায়। সে খাবে একটি ময়নার স্কুপের উপর আর্সিফ তার ব্যাক টা ফেনে চলে যায়।
হঠাৎ, এক-অজানা, লোক এমে তার ব্যাক তুলে নেয় এবং চলে যায়।

CHAPTER 7 WORKFLOW AND PROJECT OVERVIEW

7.1 Pre-Production Phase

We have spent much time to choose our final defense topic. We thought and thought, suddenly we decided that we should make a social educational multidimensional short film about drug addict person. First of all, we decided to make only video production related short film. After that, we changed my decision. We included motion graphics for title animation. We decided on our short film title name as “সংবেশন”. After that, we created the script and storyboard based on our story. Then found the location and made a budget and cast actor and made a production team.

CHAPTER 8

PRESENTATION OF MY PROJECT

My final project is a short film, which name is “**স্বপ্নশব্দ**” submitted by Mehan Uddin Talukder (182-40-518) with my four group members and they are Md Abu Ahad (182-40-513), Arham Hossen Abir (182-40-526), Shah Poran (182-40-516) and Adiba Mursheda (182-40-529). Supervised by our honorable head of the department of MCT and Professor Dr. Shaikh Muhammad Allayer.

8.1 Story

In Bangladesh social problems are big issues. Mental health is not a concern in our society. So, most of the youth facing mental issues which drag them to addiction and separated from others. To create this film, I watched and researched so many short films. But we are truly inspired from a movie named “BAISHE SRABON”. Then I discussed with the different ages people who is drug addict, I heard their life story, after all of that I made the story.

8.2 Scripting

On the story, I have visualized different scene and analyzed. Also, before scripting I have researched a huge famous movies script. Then I create script for my short film.

8.3 Associate Direction

As an associate director, I always tried to share my ideas such as (plot, location, which character is best for which location) with my team members specially director and cinematographer.

8.4 Production Management

As a production manager, I always concern about our budget for making short film. I have make shooting schedule when and where we will shoot ,what kind of instrument we need each and every thing I did this. I thought, a production manager have to do everything and this work is the another hardest work in the film and media sector.

8.5 Background Music

I have researched on many sound and SFX and also collect a bunch of sound and SFX from internet. Music is created for each and every scene with a appropriate time all these are edited or composite by FL Studio.

CHAPTER 9 EVALUATION

9.1 Analysis [What types of messages is throwing to the culture]

There are so many things are happening around us some of are good some of are bad. There is a thin line between good and bad. Now this is up to you how you can overcome the bad and how you be good. Life is so unpredictable you have to be good if you get bad influence in your life, it will take so many things out of your life. And when you try to escape those things, nothing will help you until you help yourself.

9.2 Cultural Impact Analysis

When someone get influenced on something don't boycott him or throw him away. Talk to him try to understand his thoughts and make him realize what is bad and what is good when he will realize he will quit automatically. Self-realization is key to accrue or leave something. Every person has its own odds and evens. Nobody is perfect. If a person wants to change only, he can change himself. Changing a habit is not easy. For change something you have to get self-call. Self-realization is the most important thing in life. Nothing can change you until you realize it by yourself.

CHAPTER 10

CONCLUSION

10.1 Conclusion

“Shongbeshon” was a short film about self-realization.

The story is about A lonely boy, who is addicted to drugs, is emotionally disturbed by the situation surrounding him and the previous events in his life. He tries to accept his reality but the entity inside him shows him the opposite. And he started seeing his and the society problems what he used to face. He hallucinating all the odd events of his life and got scared about it. There comes self-learning whatever he is feeling is not right and he have to overcome from it. So, he tried to skip his past and want to live a good life which he left behind.

Through this project, I wanted to spread something in the culture of our country that it has become a tradition that if you get influenced on something you can't came back in normal life. Everything is possible if you want to change it.

In our art, couple-love stories, stories of revenge are mainstream genres. But there is a lack of social educational stories. I just tried to start that way.

The whole project was like a dream to me, because I got help from the sector I wanted. I extend my sincere love to all our esteemed teachers, students, and staff of the MCT Department.
