Daffodil International University

Submission date: - 07-12-2022

Declaration

I hereby declare that, the internship report has been completed by me on basis of my practical experiences, learning, understanding under the supervision of Ms. Anta Afsana (Senior lecturer, Department of English, Daffodil International University). I have shared my internship activities, good and bad both overview as teacher I have faced there. This report is a proof of my work and it presents how I felt there. Being a student in university at the same time I was a teacher in school, totally gave me much knowledge about career and job. Internship Report is presented for the completion of my course Project Paper with Internship (ENG 431) program English, B.A. (Hons). Without it my internship means nothing. I have made this report after working three months in a row. This is a reflection of my work in the School.

Certificate of Approval

The Internship report on “Holistic Understanding of English language teaching as a Teacher in Gazirchat A.M. High School and College” is completed by Sadia Islam Mim holding ID: 191-10-352. It’s her work record which she had done in her native town’s school. She has gained knowledge and experiences there as a teacher. She was working under my supervision and completed this report during Fall Semester 2022. I wish her luck and great success in her career.

I clarify Sadia Islam’s report and strongly recommend it for viva voce.

Acknowledgement

I would like to thank the authority of the English Department of Daffodil International University for giving me the opportunity to do an internship wherever I want. I want to show my gratitude to all who helped me in this journey.

First of all my supervisor Ms. Anta Afsana for assigning me this internship work and permitting me to submit this report. Without her support, help, supervision and constructive consultation, I wouldn't be able to get success in this work. She gave her valuable time whenever I needed her. I'm truly grateful for her support.

Then obviously, our advisor Dipty Rahman, She helped me in every sphere of choosing a place for internship. Also she made me think of doing thesis. Offered me to do what makes me more comfortable and important for my career. She was supportive always to me.

I am also very grateful to my father, He helped to choose the school. He makes sure that I can have enough knowledge and experience from there. During internship he used to take care of me by paying visit in my school.

Last but not the least, The Headmaster of Gazirchat A.M. High School and College, gave his full support and also encouraged me. The warmth of the teachers there, how they welcomed and offered to observe the classes. They shared their lesson plans for making my task easier. The students were also very loving and friendly to me.

Finally, I want to thank my friends who helped me by sharing some information that helped me to make the report.

Abstract

A Holistic Understanding of English language teaching as a teacher which have been done for completing B.A Honors program in English is shared in this report. In this report, it contains my five class observation, Teaching experiences of 3 months with learnings and my opinions regarding my understanding through the whole internship journey. Also how I got to improve my skills and gather more knowledge and experience or practical field is in it. For this internship, I had chosen Gazirchat A.M High School and College. From the journey a experienced that a private or kindergarten school is different from government school I got. The teachers and Principal helped me a lot during the internship. The supervisor had guide me to accomplish this report properly. Also grateful to Daffodil International University for this noble thought of students should get knowledge of work field before completing studies. Academic result is important also with the potential energy of working as an internship. This report is about a whole journey, from my decision taking, institution selection, starting of work, experience of first class also of all class conduction to observation. Institution details have been provided, Teaching experience with all the class conduction of 3 months in detailed are given. Overall findings which I have experienced and expected is shared. Even it's known that, this institution don't need my recommendation but still have given an honest opinion regarding some changes should be focused. At the end of this report the pictures some of my work, class management, exam hall maintaining, PT period, excel spreadsheet of 3 months documents and the certificate of my Internship's institution is also given. This report also contains the teaching methods, techniques and experiment. Learning as Intern was very interesting to me, also felt the limitation of study, no matter how much I tried but I was bound to obey some rules and regulations of that particular institution. Lastly, truly glad to do such work and thankful to everyone whoever is connected to this internship.

Chapter 01

Introduction

The direction titled "Project Paper with Internship" (ENG 431) intends to region college students in extraordinary schools/colleges to decorate our English language instructing skills; non-public establishments to beautify our sensible expertise on organizational behavior, gentle abilities and difficult skills, and in Daffodil International University below the supervision of a research faculty to conduct qualitative/quantitative learn about to beautify our research skills.

I have chosen Gazirchat A.M High School and College for my internship. I have discovered the condition of English language there. Even they don't focus on that much English learning. I tried to use innovative methods to teach students. Group work, Brainstorming , Self-analysis, Problem solving, thinking etc. ways had been adopted by me to teach them. I had taken mostly 6/7/8's classes. I was given Nine's proxy and ten's test exam's guard. With much loyalty I tried to accomplish my duty. English is an international language, so for various purpose people need to learn this language, in our country it has been given very importance. Even parents also wants their child to speak fluent English. So it's prominent to have knowledge about this language and literature. I have learnt many things from this. I have gathered many skills, that'll be needed in my future. According to a report "The language spoken at home and the ability to speak English of US people over age 4 years"(US Department of Commerce and more, 2003). English is international language also it's need in corporate sector more. To communicate with the Foreign clients, this language is essential. Communication is a skill which involves systematic and continuous process of speaking, listening and understanding (Ahmed, 2016). I know the importance of English that's why I chose this subject, so I wanted to teach my students more specifically about it, many of people are good at other subjects but they failed in interview board just because of lackings in English , it's not my country only which give importance to English , there are more, English has turn out to be a compulsory challenge from Primary Three in China for the reason that 2003 and is step by step being introduced even earlier into the curriculum in many schools. This highlights the reputable importance of English in each essential college training and society (Grace Yue Qi, Multilingual Education 6 (1), 1-18, 2016).

Chapter 02

Objectives

The specific objectives of carrying out the internship at an educational institution are- To know how the situation is in schools regarding English subject. To find out the problems students face in English subject. To find the solution for students who has poor skill at English. To establish a good relationship between student and teacher. To solve problems through counseling. To know the methods of teaching. To experience a practical working life before going on job sectors. To gain more experience in work field before graduation. To set a nice goal for English Learners. To teach, my learning to them. To get idea for betterment of this country in English language and literature section. To learn the techniques and strategies for teaching English. To get to know the teaching learning process and students interest, their needs, and to provide them those.

Chapter 3

Methodology

This section is about how a particular institution was selected for internship, and how the project work is conducted. And I have divided this into five part.

3.1 Decision taking

Between Thesis and Internship, it was tough for me to choose the correct one for me. According to my CGPA I could who chose Thesis but My passion let me choose Internship. After That I thought for a while, as we had given many options to do internship. Corporate sectors (bank, industry, IT company) School, College etc was given to choose. I chose the School. I want be a teacher and this was a nice opportunity for me.

3.2 Institution Selection:

I had thought of three options of schools around my house. But my father gave me an idea to work in a Government school. Gazirchat A.M. High School and College was the perfect choice for it. It's located in my area. It took only 10-15 minutes to go there. On 7 August, 2022, Me and my father went there to have some word with the principal. Mozaffor hossain khondokar, the principal, he accepted my application and approved me as an intern teacher in his school.

3.3 Starting of Work:

I had worked there officially from 01 September 2022 but I had started going there from 10 August 2022. After going there, The principal welcomed me. He introduced me with the other teachers. I was told to sit with the female teachers. I already knew three of them. They adores me like their daughter. However, I had given the classes.

3.4 Experience of First classes:

My first class was in Class (vii, c) I introduced myself to them, and we had talked about English language, we were gossiping about English's subjects importance and their weakness on it. The second class was in Class (vii, a) They also welcomed me happily, then one of them recited a poem to me, other sang a song, someone narrated a story. That's how the first day passed. I started working from the next day to know them better.

3.5 Observation:

The English teachers were happy to have me. They let me do my work as claimed. They shared their books, guides and note with me. All the teachers are very helpful and they supported me in the whole internship. I am very thankful to them. I was more friendly and less strict. The students didn't let me down. They were listening and obeying me throughout this whole journey. I am also happy for that.

Chapter 4

Institution Details

Institution Name	Gazirchat A.M. High School and College
Location	Gazirchat , Ashulia, Savar

But now it's off for the government declaration. After the test examination of SSC candidates , it again begin. Till now, the school's/college's result is average. But it's developing.

Chapter 5

Internship activities

I'm Sadia Islam Mim was doing internship in Gazirchat A.M. High School and College under the supervision of Ms. Anta Afsana (Senior lecturer, Department of English, Daffodil International University). In the school, I was under Tanju Ara, senior teacher in Gazirchat A.M. High School and College. Tanju Ara ma'am had guide me there how to do it. She also asked me to report her about my work , so that I can learn and give a proper information to my supervisor. Momotaj ma'am another mentor in the school also helped me about taking classes. Ma'am allowed me to take counseling session in her Home science class. Everyone there who helped me a big thanks to them.

I had taken two classes, where I was introduced to them. After that day, I was told to walk with Abdullah Sir in his class, He was kind and gentle to me. I sat on the bench and he started the class.

5.1 Class observation:

First class: Class seven(c) I already had met them. So I was going to see how they behave in the class. Abdullah sir was saying the midterm syllabus has almost completed. They were going to study Right forms of verbs. Everyone were looking at the board. He gradually read out the points also questioning them if they understood it. He also asked me that I want to asking anything or not. I nodded off saying "no". He taught them 8 structure and ask them to memorize it for the next day. He then, gave them a H.W. they'll had to write those after memorizing the rules. He used the proper time of class .

Second Class: Rajibul sir's class was in seven (a). I followed him. The students are excited to see me. They also met me once but still They had a lot of questions on my presence. Sir cleared them. He started the class. I was standing behind. He offered me to sit , then they were solving model test questions. Sir also said me when I'll be taking the classes, I have to follow the syllabus

and complete it before mid term. One thing I noticed that he was in hurry. He was delivering his lectures but didn't bother to ask the students they understood it or not.

Third Class: Second class was given in class six(c). I went there with Moniruzzaman sir. They were like babies. Everyone had put on their answer copies on teacher's desk. They had given homework by their teacher. It was on Vocabulary and table matching. I asked sir to let me check those. He allowed. Then, while I was checking, he was talking about me to the class. They seemed to be sad because they loved there teachers class. I assured them , they will love mine too. Sir was too much funny and friendly with them. But I was shocked when he hit a boy with scale because he was disturbing the class. I learned that they uses scale or anything to maintain peace. This class was amazing. The students loved me at the end. I have learned how to manage students. When they are good I have to be good but if they aren't I have to strict.

Fourth Class: Again it was Abdullah sir in seven (c). He said, "you have come here fouth time so I don't have to come from tomorrow and you can manage I'm sure" . It was so sweet of him. I had followed the class with him. He asked me to let him finish the right forms of verbs topic. And he started the class. I learned many thing from him. He manages the class the class so calmly. He once said to me, my students are quite mature, they won't disturb you and won't create problems for you. If you need anything you can ask me. He took one more class on right forms of verb and give me the responsibilities to finish the syllabus for 2nd midterm.

At last class observation on Counseling session of Momotaj ma'am. She takes Home science class of class Eight girl's. She wanted me to take this class. So she, invited me to sit in her class and learn how to do it.

Fifth Class: Ma'am was talking about Hygiene. As there are only girls so it was easy to make them aware of menstrual hygiene. She said many things about it throughout the whole class, also learned the problems if girls. She suggested them to discuss their problems to gynecologist. This matters are quite sensitive for women and girls. Everyone is not comfortable with anyone regarding this

matter. So I feel amazing seeing this kind of session in a government school. I learned many things from her. The class was very knowledgeable and I also learned how to be in such type of session.

5.2 Teaching activity:

5.2.1 Class Conduction -

Day: 4/9/2022- I took two classes. One is in class seven (c), on first paper model test. This was first period, I went there, Received there warm greetings. Then I opened the attendance sheet, took their attendance by calling out the roll numbers. Among 70 around 55 were presented. Then I asked them about any previous homework was given or not. They said that day (Present day) is on English first paper, I took the syllabus and had a look on the book. Today we had to study model test. It's on their 2nd midterm syllabus. I read out the seen passage to them, The topic was Seen passage about "Bangabandhu" . Then I asked them to solve mcq. They were given 5 minutes to discuss it. After that, I was asking questions and they were giving answers excitedly. However, in which question they failed to answer, I was explaining that(topic) to them. After that I gave them more 5 minutes to find the answer of question 2. After 5 minutes they were told to write the answers and bring them to me. I used the last minutes by briefing the whole class activity and gave them homework on unseen passage. I was happy because I had not had to face any problem during the class session and it had boosted my confidence.

2nd class- It was in 3rd period with class six (c). The topic was article. When I entered into classroom, Everyone shouted at excitement. I was clearly seeing their happiness. Then one girl named marjia came to me , she was the captain of the class, asked me to check their homework. I was checking them, it was evident that everyone was copied it from answer sheet. I told them not to repeat it, it won't be good for their future. If they learn something, so that should be written, not the whole which they don't know was written in the copies. After talking to them and checking the sheets, the class was talking, making noises, yelling. I asked them to keep quiet otherwise I'll leave. They just obeyed me. Then we Opened the chapter Article, it's on their midterm syllabus. Moniruzzaman sir already told me to take this class on Article. They opened that topic but most

of them didn't bring their book. It was sad but during the class observation I had noticed it. However, I was reading out the rules and explaining it to them. I also told them some tricks to earn brownie points in exam which my teachers had taught me. I couldn't take the feedback, The whole class passed to teach them. It's a new topic for them so I had to explain not to take any review.

Day: 5/9/2022- First period with class six (b). It was my first class with them, so I went to class. I received their cordial greetings. They raised a lot of question about my presence. I told them my bio, then without wasting time, I took their attendance, 45 students were presented. I checked their copies which was on Article. Then I asked them about today's topic, What their Teacher was supposed to teach them! they said they don't know but they want me to take class on Article. This surprised me. The teacher had given homework, students copied it but didn't learn anything. Then I took the class on Article, gave them the same lecture like previous day. This time I had 15 minutes to question them. So I gave a model test question on Article and asked them to solve. 4/5 of them had solved it and the others couldn't. I gave them homework to study article and bring me questions on it.

Day: 11/9/2022- I have taken class of Class 6 c, I let them revise the topics for midterm. Some of them cleared their doubts . I wish them luck and left.

2nd period was with seven a, I had gone for proxy of math. But I told them if they want to read their exam's topic , they can. They followed my instructions and everyone was reading the Exam's materials. This period also passed by letting them revision. 3rd period in class 6(b) . I told them to revise the exam's materials but they told that, they have some doubts on Article. I took the book and teach them article as much as I can. The time was over so I took their leave. After recess, me and Momotaj ma'am went to 116 no room for seat planning. That's how the day passed.

5.3 Script Checking:

26/9/2022- Moniruzzaman sir Asked me not to take the classes this day. He gave the midterm answer copies of class six a/b/c . Asked to check everything . Also handed me the correct answers. I was sitting in female teachers lounge and checked the copies. Almost , 75 copies of six a and approximately 25-28 copies of six b had been checked. I took leave from the school and headed to home.

27/9/2022- I talked to VC sir for not giving the classes as I already have work to do. Then sat for checking the copies and completed my whole work of six b and c.

5.4 Counseling session :

7/9/2022- Last period was with them only girls will be there. It was home science's class. We talked about thinking and problem solving. The session delivered deep messages for the students. I advised them to think first at any situation, before reacting to it. They shared their problems with me. Some had family problem, some had educational problems. I had been able to win their trust by taking this session. It was visible that they are happy with my work.

28/9/2022- Therefore, Last two period of counseling session was taken by me. We had talked about Adaptability. The is overall for also students but as There were only girls in the class, so I took their class. Adaptability is a common phase for everyone but still it's a issue for todays generation. They don't want to adjust, adapt to or compromise with the situation or person. So I shared my thought on adaptability, then I got to know about their opinion. I taught them my learning on it. We also shared social opinion regarding adaptability.

17/10/2022- I had taken one class on counseling session on sanity with class eight girls of all sections. Like always we pointed out the objects. It's necessary for our health so I thought this would be a good topic for them. Then by making them group we discussed on it. They discussed,

gave their opinion, shared their feeling, including the family members thought about it and we discussed the pros and cons over this topic.

Week 1-

Day: 4/9/2022- I took two classes. One is in class seven c , on first paper model test. 2nd class- It was in 3rd period with class six C on Article.

Day: 5/9/2022-

First period with class six (b). It was my first class with them, so I went to class. Then I took the class on Article, gave them the same lecture like previous day.

Day: 7/9/2022-

I was given one class on fourth period of Bangla proxy in class Eight C. After that Last period was with them only girls will be there. It was home science's class. We talked about thinking and problem solving.

Day: 8/9/2022- Today I had a really long day, In six periods I had to take classes of 5 period, the teacher was on leave his all classes were belong to me. Even in the third period,(off period) I was busy in preparation for mid term with Two teachers in Library. After the work I got little time to eat. Then again the classes. Last period was on Counseling session with class eight girls. I have taken classes of Seven c, Seven a, Nine science 1, Eight c, Nine humanities, Eight with girls of a/b/c. This day was tiring but enjoyable.

Week 2-

Day: 11/9/2022- I have taken class of Class 6 c, I let them revise the topics for midterm. Some of them

Cleared their doubts . I wish them luck and left.

2nd period was with seven a, I had gone for proxy of math. But I told them if they want to read their exam's topic , they can. 3rd period in class 6(b) . I told them to revise the exam's materials .

After recess, me and Momotaj ma'am went to 116 no room for seat planning. That's how the day passed.

12/9/2022, 14/9/2022, 15/9/2022, 19/9/2022 , that was second midterm time, I was in charge of exam hall guard. I had done my duty 4 day, One day I was with Tanju ma'am, Another day with momotaj ma'am, then with Rajibul sir , and last day with Salma ma'am.

Week 3-

Day 20/9/2022- I was given second class in class eight (a) . It was proxy class. Fourth class was in class seven (a) , We discussed the new topics for final.

21/9/2022, it was holiday.

22/9/2022- I took first class on seven C. It was on model test first paper. I read out and explained it to them. The Third class was in Nine C. I was not prepared for that class. Suddenly the vice principal sent me to take class in Nine. They said to teach them completing sentences, for this I had to teach them Clause. As I wasn't prepared, so I took the book and I was reading it, elaborating it to them. They were kind to me and gave me much respect. I will always appreciate that. Very nicely I took the class and left

Week 4-

25/9/2022- First class was in class six (a), They said ma'am wanted to show the midterm copies today and they weren't given any homework. The VC sent me in class seven (b) . They were given homework. They had put the copies in the desk, I was checking them while they were reading the objectives of lesson 4.

26/9/2022- Moniruzzaman sir Asked me not to take the classes this day. He gave the midterm answer copies of class six a/b/c . Asked to check everything .

27/9/2022- I talked to VC sir for not giving the classes as I already have work to do. Then sat for checking the copies and completed my whole work of six b and c.

28/9/2022- The teachers had to provide the answer copies in their respective classes, so I hadn't conducted any English classes . Therefore, Last two period of counseling session was taken by me. We had talked about Adaptability.

Week 5- From 2/10/2022 to 6/10/2022 was vacation for Puja.

Week 6-

9/10/2022- was holiday for Puja

10/10/2022 – I had one counseling class in proxy of Home science in class seven, with all girls. It was on thinking and Problem solving.

11/10/2022, 12/10/2022, I was on sick leave.

Week 7-

16/10/2022- One class in six(a), another period with class seven (c) on punctuation. I took the classes of both class by giving lectures on punctuation. They had Capitalization and Punctuation on final syllabus. So I read out the rule and by pointing out them I explained it .

17/10/2022- I had taken one class on counseling session on sanity with class eight girls of all sections. Like always we pointed out the objects. The by making them group we discussed on it. They discussed and shared their opinion.

18/10/2022- The first period on punctuation with seven c, second period with class six a on paragraph, third period proxy of science of class seven b.

19/10/2022- The first period on model test of first paper- class seven c, last class on counseling session with class seven girls.

Week 8-

24/10/2022- Government holiday

25/10/2022- School declared holiday for cyclone

26/10/2022- Leave of absence

27/10/2022- Leave of absence

Week 9-

30/10/2022- First class in class eight © on Dialogue writing, I show them the pattern and they were memorizing the dialogue from syllabus.

31/10/2022- I had four classes today, I spent one class of six b in asking the stories writing, six c was also spent like this, after tiffin seven b , I gave them classwork on writing application and the last was on counseling session with class eight girls regarding mental health and little bit touch of home science annual syllabus.

1/11/2022- I was asked to check the class test answers copies of seven © one last at last period regarding counseling session of mental health

3/11/2022- I took three class – seven c: punctuation and capitalization , six b on paragraph writing, seven c on gap filling with clues from several model test questions

Week 10-

6/10/2022- Two classes one is 10 (science) proxy as the teachers were busy, another class in 10 (humanities) I gave both of them time to revise the topic for test.

7/10/2022- Government holiday

8/10/2022- First class was in class eight © , I let them revise informal and formal letter. Then I asked them to write it and give it to me. They done as said. I checked the copies.

9/10/2022- Test exam hall guard with Parvin ma'am , it's class 10's Model Test Exam.

5.5 Experience_– I had had great time there at Gazirchat A.M High School and College. But I found the maximum students weakness in English. I tried my best to give something to them. Somewhere I felt the teacher is not giving proper teaching which they need. When I went to classes, I found there homework on desk but It was 90% copied from answer or some classmates. 10% student puts there effort on study. Even the teachers were only concern about finishing syllabus. I was doing well in class 6/7/8 but when I went to class nine totally unprepared , I was nervous. But I talked to them , took the help of the book and finally had able to manage the class. From then , I tried to skip nine and ten because I knew, I have to learn more and more to conduct those higher classes. I thought teaching will be easy but definitely it's way more difficult than I thought. However, I had only little experience on teaching as home tutor but with everyone's blessings I have been able to Take classes and complete my 3months journey in that institution.

5.6 Learning as an Intern-

I had learned so many things, during my entire journey of Internship. Such as, Class conduction, Student Monitoring, Student management, Class management, Student counseling, Team work, checking copies, Exam hall guard, Marking numbers, Leadership, Mentoring, Problem solving, Guiding, Advising, teaching assistant, exam hall maintaining etc. It was such an amazing experience I had. I always observed my teachers but being a teacher was such a different feeling. I was sharing my knowledge also learning from it. I was privileged to have such supervisor and mentor. I have learned many things, obviously this was my first time in monitoring the exam hall. I entered there, I only had stopped students in creating mess, chaos. Even I also had provided the question paper, helped them to understand the questions. I have gained practical experience in school but learned many things from everyone whoever was connected to my internship. I took feedback from my students and thrilled to get such splendid reviews. By doing all these my understanding level got more sharpen. I was enjoying every each point of it. I knew why sometimes our teachers were strict to us, I knew why they made us efforts , I knew how they loved us.

5.7 Limitation of study-

I always wanted to be a teacher; I was thrilled to get this job. But I could go only 4 days there, I had class in university and the school was on holiday on every Friday and Saturday. So, I used to attend 4 days there. It was a new environment for me, I was loyal to my workplace, I work there like a professional do even though I had to face some disappointments. I thought I would be able to provide my learnings to them but the teachers already made them conscious about good marks not learning about new things, or a new language. I tried to give my best but I had to go with the flow, I only provided them those things which the teacher asked me to do.

Chapter 6

Overall Finding

The classrooms are big and easily 4/5 students can sit on each bench. The School has CC camera, which ensures the safety of the students. The teachers, authority are very nice, kind and gentle. The staff's behaviors are also very good. Very old institute but authority has maintained it very well. I love the neat and clean environment. The classrooms are also organized. In every class they have CC camera. The library is small but has good amount of books. They give time to discuss about students progress with guardian. Female teachers are very much concern about female students and their girly matters. Found good bond of teacher and students relationship. They are strict but not rude in the exam hall. They have nice classroom management. Students are quite weak in English subject. Though they have computer club, but didn't seem to use it much. The students don't wear proper uniform.

I also found most of them were weak in English. I checked their IQ, their basic knowledge regarding the language and literature but it disappointed me. Even the good students who get good marks in most of the subject are weak in English. They somehow collect the suggestion and memorizing the question answer helps them to get good marks in English. When I gave them classwork on punctuation many of them just wrote the passage. It's class six(c), the teacher had given them H.W on punctuation, they came with good answer and handwriting but when I gave them to write about it, only one student were able to do that. Moreover, The students didn't seem to be civilized. The male teachers use stick to beat students, not to scare but brutally to make them decent. Teacher focuses on completing syllabus but not on their learning. (About two English teacher, whose classes I have taken). Teacher gives homework without teaching the topic. (this was not overall, I found it about one teacher and that was disappointing).

Chapter 7

Recommendation

I don't mean that they have to change or they are wrong. But it's just that I felt if they modify some matter, so it would be more suitable for a good educational institution. Some matter should be overlooked, such as- They should open a English literary club specially for the weak students. The computer lab should be used properly for betterment of both students and school. Teacher should focused on students learning rather than completing syllabus. Homework is important only when they learn something. But according to me, it's just to make them busy, but they aren't learning anything. It should be focused. Teachers are following old school method but I think they should use something to new which will attract students into study. I have taken English classes along with counseling session, so I feel, they also should try to connect with students through their communication skills. They have managed the institution very well, but applying some methods can make more good result for the academy. The students were only trying to get marks in exam, not to learn it. They should have use technology. Even Employability of graduates is a concern in many countries, together with Malaysia, and the excessive unemployment fee among graduates is often attributed to their lack of English proficiency and verbal exchange skills (Su-Hie Ting and more, 2017). So they should focused on English learning from early age.

Chapter 8

Conclusion

I have gained great experience during my Internship at Gazirchat A.M High School and College. Internship helped me to learn the basic skills at work field. I am honored to have the opportunity to work on my project under the guidance of such a committed and enthusiastic supervisor. I can surely say that the whole process of my internship was educative. I used to give presentation in my class in front of my classmates, friends and teachers whom I knew already but when I became a teacher there, it was an amazing experience to present my knowledge in front of unknown students. That reminds me my school days too. I am great in communication and making network, it was an opportunity for me to groom my skills. I have also shared some 21st skills to my students for a practical life, I know that only academic result is not sufficient for a job or career, so from now they should learn some skills, extra curricular activities, some good habits which will be needed one day in work life. At Gazirchat A.M. High School and College, My confidence grew up in speed, I can easily now connect to people, I can teach them my learnings. Even I want to be a teacher so it was practice for me in teaching profession. I used to watch teachers in the class but now after standing in that place, I have gotten a new image of a teacher specially an English teacher in our country. People give much priority to this international language. They try hard to learn some sentences, so I think we should do workshop for those who wants to learn but can't do it. For this purpose only the teachers and students or interns can make a change. I worked there like professional but enjoyed my entire journey a lot. I learned anything from this Internship. English language instructing foreign places is taking on a new persona as a end result of the want for many superior college students to use the language as a tool in the study of scientific and technical topics (John PB Allen, Henry G WiddowsonWalter de Gruyter, Berlin/New York 12 (1-4), 1-22, 1974).
