## Acknowledgement

My studentship at Daffodil International University as a bachelor's student is coming back to finish when this internship report submission and presentation. A bit over for years of learning, hardship and commitment is coming back to a finish. The items I actually have learned are not only from the lecturers, however additionally from the people I met, place I went and observation. I would prefer to convey my sincere appreciation to the almighty Allah for giving me the strength and also the ability to complete the task among the planned time.

I want to thank Sheikh Mohammad Shafiul Islam Associate Professor and Head of Department of Journalism and Mass Communication, who was my academic supervisor, helped me out every time I needed to know anything not only related to the internship but more. He has overseen my work and aided throughout the time I had him as my teacher and also at the period of my internship. I humbly appreciate all he had done for me. I am also thankful to the Department of Journalism and Mass Communication of Daffodil International University for providing me the opportunity to have a glance at the professional experience through the internship program.

I would prefer to provide special thanks to all officials and staff of professional. I might additionally like to thank the authority of Radio Dhoni for giving me the opportunity to try and do my intern in one in all the reputed Non-Government Organization. It was a very exciting experience for me. Everyone at the office took me as one of their own and treated me well. They were very friendly when I queried for any information and helped me out every time I found doing something difficult. The controllers, assistant controllers taught me which news are broadcasted and which are not and why. They taught me how to write, edit, and trim the news for broadcast. As I had to work on different shifts and there were different people all the time, they supervised me in a manner, I never felt like an outsider.

I would prefer to take this opportunity to show my feeling towards my parents, without their ethical and financial support, I would not be here right now. Their helping hand support me a lot to finish my report with success. Finally, I would like to stay my gratitude to my beloved father A K M Aliuzzaman Khan and my mom Nasrin Arakhanom, who gave special attention to me from the very starting to the till at the end of my BSS (Hons) program. My elder sister, who has continuously been by my side. And my creator, Allah, for giving me a mind to assume, eyes to and hands to write down. I am humble to the teachers and friends I have, as they formed me, and my conceptions on the world.

# CHAPTER 1

## Introduction

---

## What is Internship?

In layman's term internship is that the amount of your time in a workplace or a company before one graduates. During this amount of time, one should observe the works, work and after a particular amount of time, prepare a report on what one had worked on which require to be showcased in a formal ceremony.

Internship is a bridge between one's education and future job(s) because the internship has to be performed within the relevant organization of one's study. As a result, an individual understands what are the practical use of their study as well as they get to find out a way to deal with a workspace, first-hand.

---

## Why Internship is Important?

Classrooms are for learning, it's a reality. However there are specific things that can't be learnt without practical work. Formal classroom teaching method includes vast amounts of theory however typically an awfully very little practical work. Although academically a student will learn a lot, operating within the field could be a very totally different experience. Here comes the internship to fill the gap and provide the students the experience and prepare them for the sector techniques which can lead them to a prosperous future in their career.

Journalism and Mass Communication is one of the sectors where not solely excellence or academic results are necessary however additionally the sphere experience is a must. As a student of this discipline, one could find out how to assemble news, conduct an interview, compile the facts, and write it in a very formal polished fashion etc. however without field experience, these educational data can't be honed. That's why internship is extremely necessary for a student of Journalism and Mass Communication before they enter job market.

## Background of My Internship

*RadioDhoni* is the first radio station where news uses to broadcast. Four prime news and seven hourly bulletins is broadcasted in the total period of eleven times daily. Beside that this center broadcast flash news through the whole night. *Radio Dhoni* is currently on number seven in the list. I knew that they had much to offer and I had a lot to learn from them. So, when I got the chance to be an intern in this organization, I didn't second guess myself and joined the central newsroom.

# Chapter Three

Learning and Experiences

---

## Knowledge gathering/ learning

During my position at Radio Dhoni, I edited and reported news from different sources. During this procedure, I had collected information on numerous aspects of reports and editing and translating news. Information that I had gathered throughout my internship are listed below

**Editing News:** At my university, I've learnt the way to edit news. Although, it had been a practical based course, I did not really have field experience. The time I spent at Radio Dhoni, I came to understand about the basic aspects of redaction and therefore the huge responsibilities of an editor's (Controllers at Radio). Controllers are liable for the clarity and accuracy of content that's aired on radio. Whereas I used to be working in newsroom, I used to be suggested to check Bangla spelling mistakes still as grammatical ones. And then, one of the controllers would final check before it those news were aired.

**Learning about news:** As a fresher, I actually have little practical knowledge regarding news creating, writing and redaction for broadcasting media. That's why I followed the footsteps of the controllers how to gather data and write. My supervisor Ms. Shahana Jahan advised me to read daily newspapers, watching TV report. Radio monitoring Cell and was suggested to concentrate to the bulletins of Radio Dhoni to know the formatting of the news aired by them.

**Practical Experience** – I have worked in fields for reporting purpose. I have gathered many practical experiences from there. The field experience was nothing like the bookish knowledge that I have acquired from my University.

---

## Tools and technologies used

Till the last day of my office, always I tried to apply different techniques for during my activities and some tools for making it easier.

**Computer:** A computer was provided by the authority for my daily assigned work.

**Printer:** In every day I had to print a lot of files such as flash news, packages, headlines of news etc.

**Photocopy Machine:** Sometimes I used the photocopy machine to copy some of our news pages.

**Recorder with gears:** Whenever I had to do some reporting I used recorder, boom, cable and headphone. These gears are used for news recording.

**Microphone:** To present the hourly news that time I used the headphone, microphone, sound systems, camera etc.

---

## Special experience

All the news regarded the City Election that has been broadcasted in Radio Dhoni was provided by me. There was no such experience of doing this kind of work before. It was a very special experience for me. I learnt how to cover the news of an election from this Radio.

I was honored with such behavior and hospitality and I also felt at home around these people, which I am greatly thankful for.

---

# Chapter Four

## Evaluation of learning

---

## Academic learning and practical work

Bachelors of Journalism and Mass Communication in Daffodil International University offers many courses on report writing, editing, copy writing and advance courses on these in addition. And also courses on Mass Communication where we have a tendency to get to be told about communication patterns, communication completely different in places or with different form of teams. And totally different academics had educated us from their very own views as they have worked in several platforms at some stage of their lives. So, if not compiled the information, normal students would suffer to grasp the entire of it.

Though my academy taught me how to report and edit news but this internship let me use those knowledge in real life. Most of the learning was similar to my learning at University from the course, but sometimes the delivery was different as not everyone was taught by the same teacher of practice everything in the same manner. Working with them really made huge impact in my learning.

When I came to Radio Dhoni, I started to learn how the news runs here, they gets the most accurate news and they cross-check everything. Without being sure about something they wouldn't air any news. While a lot of prominent newspapers are opening online portals and there are already some established online portal in the country operating with great agility, Radio Dhoni is somewhat slower than them which we have always criticized.

---

## Usefulness of the Learning from the Internship

I have learned a lot of things during the internship period. So now I want to talk about the usefulness of my learning things. I think that the internship will make my career easier. I was focused to start my career in News Broadcasting. After doing this internship program, I am confident that I will make a good career in this sector in the future.

Learning from the internship:

- How to communicate with others in a proper communication skill
- How to write reports
- How to create packages
- How to present news
- How to make a work order by following
- Developed my skill by using different techniques
- Different professional techniques to make every day's activities easier
- Different angles of news broadcasting
- Using tools
- How to maintain the critical situation and extreme pressure of working

---

## Expectation and outcome

Honestly to be told, I did not have much of an expectation. We believe that Radio Dhoni is kind of late whereas published news, they air similar news again and again, and their presentation is good. I have seen however the news is been edited and additional news info or cut every hour. The newsroom may be a literal war-zone, where controllers are lieutenants, captains and warriors collecting, writing, editing, trimming and sharpening news to air. The frenzy is captivating, heart pumping. The setting is therefore wonderful that however every hour goes by, one cannot extremely recognize. It was quite a ride on behalf of me and one that I shall continually keep in mind.

---

## Skills developed during my internship

Throughout my 11(eleven) semester at daffodil International University, studying in Journalism and Mass Communication has tutored memore than enough concerning writing, piece of writing news and quite ton concerning mass communication likewise. However as I previously mentioned, learning isn't complete without practical data and skills. This can be precisely why internship is very important. In an internship, we tend to get to understand the way to work in a field or in a newsroom or in human resources and communication sectors.

All these studies results in employment or entrepreneurship. Except for that, we'd like to know how the organization works. And internship helps us out to bridge the gap between classroom knowledge and practical data. And my internship wasn't completely different than that at all.

I have already learned about gathering, compiling, writing, editing and polishing news. However working here honed my ability to try and do the thing I actually have learned in previous couple of years in my university courses.

---

## **How this experience will help me in my future career**

Internship is all regarding relating theoretical data to field and additionally sharpening the data that has already acquired. To my belief, the items I even have learned plenty at Radio Dhoni because the learning was very relatable to my course materials at university.

So I believe, like my theoretical data on a way to deliver a decent report/news, my practical knowledge is now improved as well. So, after I shall opt for a job, I'm hopeful I shall be higher at doing my job now than before this internship.

---

# **CHAPTER FIVE**

## **CONCLUSION**

---

## Conclusion

Internship is a primarily the road to someone's career. One gets to understand the applications and opportunities of their theoretical studies of the recent past. Internship is a chance to explore one's relevant field while not the worry of falling down as it is a part of learning and everybody is there to assist. One will make as many mistakes at this period of time (which isn't suggested, at all) and ask plenty of questions about anything and everything and everybody usually is happy to answer all the queries.

Internship is more likely the part of a kid who simply began to speak and always have queries on top of their head. They carry on asking till their curiosity is consummated. To my thought, an intern ought to be curious, however should be kind and forever raise relevant queries.

Radio Dhoni gave me a great setting and an excellent deal of experience. The staff took me very well and I'm sure have learnt plenty regarding news, respecting the hierarchy and punctuality. I shall forever bear in mind these virtues because I believe; these can take me in a prosperous future.

Last but not least, I'm very proud that I am finishing my Bachelors' with this very internship report from an honored establishment, Daffodil International University. I would not have come this far without the academics, structure and surroundings this university had offered. and clearly the Department of Journalism and Mass Communication, which had shaped me into the person I'm currently, of whom I will courageously say I am proud of.

ANNEX-C: Accident news in several areas.

ঈদকে সামনে রেখে রাজধানীর শপিংমল, ফুটপাথসহ সবখানে জমে উঠেছে বেচাকেনা। সরকারি ছুটির দিন হওয়ায় সকাল থেকেই কেনাকাটাই ব্যস্ত সময় পার করছেন বিভিন্ন শ্রেণী পেশার মানুষ। দামদস্তুর করে প্রিয়জনের হাতে পছন্দের জিনিস তুলে দিতে ঘুরছেন এ মার্কেট থেকে আরেক মার্কেটে। বিস্তারিত জানাচ্ছেন নাওমী নাসরিন।

প্যাকেজ: আপস.....

ঈদের বাকি আর সাতদিন। সাপ্তাহিক ছুটির দিনে জমে উঠে ফুটপাথ থেকে শুরু করে অভিজাত বিপনী বিতানগুলোতে বেচাকেনা। ক্রেতারা যাচাই-বাছাই শেষে কিনে নিচ্ছেন পছন্দের জিনিসটি। বাবা-মায়ের হাত ধরে শপিং এ আসে ছোট ছোট শিশুরাও। বেছে নিচ্ছে নিজের পছন্দের ঈদের পোশাক। ড্রেসের সাথে মিলিয়ে কিনছে জুতাও।

ভরপপ.....বাচ্চা ৮, 13, ২২, ২৮, ২৯, ৩১, ৩৬, ৩৭, ৪৯, ৫১, ৫২, ৫৭

আবহাওয়া বিবেচনায় রেখে ডিজাইনে খুঁজছে কিছুটা ভিন্নতা। এছাড়া হালকা রংয়ের বিভিন্ন ডিজাইনের ড্রেসের চাহিদা বেশি। মেয়েদের পছন্দের তালিকায় রয়েছে যেমন বাহুবলী, বুটিক, কটন, সুতি থ্রি-পিস, কারচুপি, সিল্ক। এছাড়া তেমনি ছেলেদের চাহিদায় আছে প্রিন্টের শার্ট, জিপ, পাজ্জাবি, কাবলী, কাতুয়া সহ বিভিন্ন ডিজাইনের জুতা।

ভরপপ.....ছেলে ১৭, ৪১, ৫০,

মেয়ে ৭, ৯, ১২, 14, 16, ২১, ২৩, ৩৮, ৪৪, ৪৫, ৫৬,

ক্রেতারা বলছেন ঈদ যত ঘনিয়ে আসছে পণ্যের দাম বাড়াচ্ছে বিক্রেতারা। তবে বিদেশী পোশাকের দাম বেশ চড়া হলেও দেশী পোশাকের দাম সাধ্যের মধ্যেই আছে।

ভরপপ= অভিযোগ ৭, ৯, ২৬, ৪১, ৪৪,

ক্রেতাদের এমন অভিযোগ মানতে নারাজ বিক্রেতারা। দাবি সবকিছুই ক্রেতাদের সাধ্যের মধ্যেই।

ভরপপ= বিক্রোতা ২, ৩, ৪, ৫, ৬, ১০, 15, ১৮, ২৪, ৩২, ৩৪, ৩৫, ৩৯, ৪২, ৪৭, ৫৩, ৫৪.৫৫,

দাম কম- বেশি যাই হোক না কেন, পছন্দের জিনিসটি প্রিয়জনের হাতে তুলে দেয়ার মাঝে তৃপ্তি খুঁজে পান সবাই। কিন্তু সাধ্যের বাইরে কেনাকাটা করতে বেশ হিমশিম খেতে হচ্ছে তাদের, সেটি থেকে যা যায় সবার অলক্ষে।
